Caution regarding forward-looking statements

This document contains statements about expected future events and financial and operating results of Ruchira Papers Limited, which are forward-looking. By their nature, forward-looking statements require the Company to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that the assumptions, predictions and other forward-looking statements will not prove to be accurate. Readers are cautioned not to place undue reliance on forward-looking statements as a number of factors could cause assumptions, actual future results and events to differ materially from those expressed in the forward-looking statements. Accordingly, this document is subject to the disclaimer and qualified in its entirety by the assumptions, qualifications and risk factors referred to in the management's discussion and analysis of Ruchira Papers Limited Annual Report 2017.

More from Less

At Ruchira Papers, 'More from Less' is a core organisational attribute.

We are driven by the passion to moderate costs. To eliminate operating efficiency.

To maximise realisations.

To reduce the consumption of utilities.

To work with attractively low end-product inventory.

Making it possible to generate a large proportion of the increase in our profits and margins from superior working.

The result is that Ruchira Papers has progressively emerged as one of the most productive agro-based paper companies in India.

This competence has reflected in the Company's profitable growth – revenues increased 15.11% while profit after tax strengthened 64.61% in 2016-17.

C O R P O R A T E I D E N T I T Y

Ruchira Papers is a
passion-driven company.

Driven not as much by the prospect
of what is but what can be.

Motivated by the prospect of
generating more out of less.

Inspired by enhancing value for all
stakeholders.

About us

Our background

Ruchira Papers Limited was incorporated in 1980, spearheaded since by Umesh Chander Garg, Jatinder Singh and Subhash Chander Garg. The promoters are hands-on in their engagement with the allocation of specific responsibilities.

Our production ability

- The Company launched its operations in 1983 with Kraft Paper production capacity of 2310 TPA; the Company produced 66426 MT in 2016-17
- In March 2008, our Writing & Printing manufacturing unit was commissioned; the Company produced 50351 MT in 2016-17
- A power co-generation plant was commissioned to support the Writing & Printing plant through captive consumption.
- The Company effectively utilises agricultural residues comprising wheat straw, bagasse and kans sarkanda.

Our products portfolio

The Company is engaged in the manufacture of Kraft Paper and Writing & Printing Paper.

Kraft paper is used in the packaging industry to make corrugated boxes / cartons and other packaging products. Its most attractive feature lies in its load-bearing capacity and tenacity, making it appropriate for corrugated packing applications.

The Writing & Printing paper caters to the growing demand for printing and stationery, comprising note books, writing material, spiral notebooks, greeting cards, coloring books, colored copier paper and bill books.

Our location

The Company's manufacturing unit is situated in Kala-Amb, District Sirmaur, Himachal Pradesh. The unit is 68 kms from Chandigarh and 50 kms from Ambala and Yamuna Nagar along the Chandigarh-Dehradun Highway.

Our listing

The Company is listed and actively traded on the Bombay Stock Exchange (BSE) and National Stock Exchange (NSE) with a market capitalisation of ₹351.35 crore as on 31st March 2017. The promoters accounted for 61.14% of the Company's equity as on (as on 31st March 2017).

MANAGEMENT'S OVERVIEW

We are pleased to report an appreciable improvement in our performance in 2016-17.

Ruchira Papers Limited reported credible performance during the year under review. The Company's revenues grew 15.11% while profit after tax strengthened by 64.61% in 2016-17. The fact that the Company reported profitable growth represented a validation of the business model. Besides, we outperformed the growth of the country's economy and paper industry as well, enhancing value for our stakeholders.

The big question: how did Ruchira Paper outperform national and sectoral benchmarks? What are our competitive advantages that made it possible for the Company to post a significant improvement in performance?

In this overview, we have attempted to identify some of the most important factors that make us different.

1

Best over biggest

At Ruchira Papers, we recognise that in a business that is capital-intensive, there is a bigger premium on being the best than being the largest. In our business, being the largest has corresponding implications of capital appetite; in the event that this capital is debt, the need for scale would immediately translate into a high interest outflow and moderated margins; in the event of net worth, the need for sectoral visibility and economies would translate into a high equity component that would depress earnings per share. However, when one seeks to be the best, there is a focus on generating resources and surpluses from within to fund one's growth. While we do concede that the operating surplus in this case may be relatively less than what would be able to derive from a significant capital infusion and large capacity, this surplus would be sustainable.

2

Sustainable over dramatic growth

At Ruchira Papers, we believe that the only growth that is sustainable in our business is the one derived from cost savings coupled with product value-addition rather than a business dependent on periodic price increases. The result is that our business is centred round gains that can be sustained through good years and bad: these gains are manifested in moderated resource consumption, running our plants at the highest operating efficiency and generating more from less. We believe that when the sector passes through sluggishness, we should be competitive enough to be the last person standing and the first to be off the blocks when conditions improve. We are proud to state that we consider ourselves as a competitive paper manufacturer, viable in good and challenging markets.

3

Make and market better

At Ruchira Papers, we believe that our business carries a strong manufacturing connotation. The reality is that this is a marketing business, where companies need to understand the diversity of what customers want and then remain responsive enough to deliver.

Over the years, this capability has enhanced our customer focus;

we keep asking our customers how they perceive consumer preferences; we keep asking them how their competitors are innovating. The result is that we are driven by the enthusiasm to make better products – superior brightness or colours, or a higher burst factor. The objective is to make better products that take the business of our customers ahead.

4

God lies in working capital management

At Ruchira Papers, we believe that the larger we become, the 'smaller' we need to remain.

The smallness in this context is a reference to the size of our Balance Sheet. We believe that the best companies are those that grow their businesses in a sustainable way without a corresponding increase in their Balance Sheet, translating into

superior returns on employed capital. Over the years, we have been growing our scale without a proportionate increase in assets or working capital outlay. This has been achieved through our ability to commission additional capacity within time and cost, commission below the prevailing greenfield benchmark (translating into relatively low debt and hence interest outflow) and manage working capital efficiently (quicker receivables, comfortable payables and attractive value-addition).

5

Grow to the extent the Balance Sheet permits

At Ruchira Papers, we are engaged in continuous growth – with a difference. We believe that it is important to be growing virtually on a year-to-year basis through continuous de-bottlenecking and production balancing – but only to the extent that is financially prudent and does not compromise the solidity of our Balance Sheet. This is what we mean by sustainability – getting to a sweet spot of growth in production ability that does not endanger our

ability to recover receivables or address our obligations to lenders and equity owners.

6

Passion is the best insurance

At Ruchira Papers, we could always run our company in a 'business as usual' manner; we have always selected to manage through a 'business as unusual' approach. The result is that we work with a passion; our promoters are hands-on; we have selected to run our office from within our manufacturing premises; we are always encouraging our people to

be entrepreneurial; we delegate decision-making; we create leaders from within; we are perpetually pushing the envelope when it comes to product or process breakthroughs; we believe that our people come to work with an enthusiasm that extends well beyond the routine.

Production,
2015-16

116,776 MT

Production,
2016-17

17.84%

growth
in 2016-17

The result of these initiatives has been that we have grown attractively: our production increased from 99101 MT to 116776 MT i.e. growth of 17.84% over the previous financial year; we have grown output in every year over the last 4-5 years; our receivables were a mere 37.40 days of turnover equivalent; we grew our turnover from ₹284.28 crore to ₹427.36 crore without increasing our working capital outlay; we drew only 75-80% of our working capital sanction.

We are optimistic that these priorities represent the operating framework that makes our business solid, secure and sustainable to be able to address the growing needs of the world-fastest growing major economy.

LESS

MORE

At Ruchira Papers, less is more

At Ruchira Papers, we have a lateral perspective on the issue of cost management.

On our shop-floor, less is more.

We believe that every initiative – however small it may initially appear – holds out scope of large gains over a period of time.

We have brought to this reality a delegated passion: we encourage, we dissect, we debate, we collaborate, we empower.

The result is that our overall team – seniors and shop-floor – are driven by the obsession to locate inefficiency or realities that can be improved.

Our teams are always on the search to moderate resource use, replace materials with superior substitutes, research new engineering component developments and operating combinations.

The result of this singular commitment lies in the numbers: we moderated the consumption of power by 68 units per tonne in Kraft Unit and 120 units per tonne in our Writing and Printing Paper unit in the four years ending 2016-17. Based on the prevailing cost that we paid for power in the year the savings were made, we have saved a substantial amount across the last four years.

Strengthening our conviction that the growth in our profits are largely generated from within.

EXTRAORDINARY

AVERAGE

Transforming the average into the extraordinary

The kraft paper segment proved challenging for most Indian manufacturers in 2016-17.

There were a few reasons for this: the main factor was a consumer slowdown in the economy following demonetisation. Since kraft paper has an industrial application, the growth of the industry/economy directly affects the kraft paper.

Ruchira Papers stood to be affected by this reality, considering that the Company generated 37.81% of its revenues from kraft paper in 2016-17.

However, the Company performed better than the sectoral average for some good reasons.

One, the Company manufactured a superior kraft quality.

Two, the Company customised its kraft product in line with customer needs.

The result was that the Company's kraft products sold with speed, inventories were drawn down faster and the product generated realisations higher than the prevailing average.

Emphasising the point that even in challenging business segments, the Company focused on profitable outperformance.

Q: Was the management pleased with the working of the Company during the year under review?

A: The management at Ruchira Paper was pleased with the working of the Company during the year under review for a number of reasons.

One, the Company performed better than the growth of the country's paper sector; the latter grew 7% while the Company strengthened revenues 15.11%, indicating that we are ahead of the sectoral curve.

Two, the Company reported profitable growth: even as revenues grew 15.11%, profit after tax strengthened 64.61%, indicating the robustness of our business model.

Three, our EBITDA margin strengthened from 13.10% to 15.16% – the third straight year of an increase in our profitability.

Q: The general impression is that the Company reported record earnings on account of an increase in paper realisations.

A: That would only be partly true. The reality is that in the paper industry, it is virtually impossible to pass on cost increases to consumers whenever you desire. An increase in margins and profits need to be derived from a proactive strengthening of one's business model instead. During the last financial year, the Company reported superior operating and financial numbers on account of an established culture of enthusiasm that was most visibly reflected in ongoing value-engineering.

Q: How do you explain this value-engineering?

A: At Ruchira Papers, the principal manifestation of our value-engineering is reflected

in our ability to generate a larger production from our existing facilities. In a business where the prevailing capital cost per tonne of production is around ₹30000, indicating that the business is capital-intensive, the most effective means of increasing our profitability is through the ability to generate a larger throughput.

This is one area where the Company performed creditably during the last financial year. The Company followed on its production of 99101 tonnes in 2015-16 with 116776 tonnes in 2016-17. The increase in output made it possible for the Company to amortise fixed costs more effectively across a larger output; besides the increased production strengthened the Company's product mix resulting in a combination of larger output of desired products accompanied by higher realisations.

The result is that our production increased 17.84%, revenues increased 15.11% during the year under review.

Q: What were some of the other reasons that translated into a record year for the Company?

A: In the paper industry, a combination of the product mix and the quality of what we manufacture are critical to business sustainability. In a dynamic market where demand patterns keep evolving, success is derived from the ability to manufacture products

Operational review, 2016-17

enjoying demand traction and deliver them around a quality standard that makes it possible to generate the highest realisations. This ability is derived from an ongoing understanding of consumer needs, emerging trends and quality-respecting buyers prepared to pay a corresponding price. We would state that much of our enhanced predictability was derived from the ability to respond to emerging marketplace realities with a strategy that generated the highest per-hour returns from our paper manufacturing machines.

For instance, the Company increased the proportion of revenues from writing and printing paper from 52.33% of our overall revenues in 2010-11 to 62.19% in 2016-17. This increase was in line with our conviction that the writing & printing paper segment will be relatively buoyant compared to other categories across the foreseeable future, will provide opportunities to enhance value-addition and make it possible to generate superior realisations.

Within the writing & printing segment, the Company increased the proportion of coloured paper from 12.67% a few years ago to 27.69% in 2016-17; besides, a corresponding improvement in the quality of coloured paper made it possible for the Company to strengthen average realisations of coloured paper from ₹51614 per tonne in 2015-16 to ₹54966 per tonne in 2016-17.

The result is that our writing & printing paper segment accounted for a significant per cent of our EBITDA during the year under review.

Q: What were some of the other initiatives that helped enhance profitability?

A: The other important initiative at Ruchira Papers was a focus on cost management. In a business where raw materials account for more than 50% of the overall cost of production, there is always a premium to consume a progressively lower quantity of resources and consumables per tonne of end product manufactured. This is the one area where the role of passion is critical: it is generally derived from a conviction that less can be more, a corresponding belief that such opportunities exist and the knowledge in being able to identify exactly what value-engineering initiatives are needed to be pursued to make an impact.

During the course of the year, the Company sustained its value-engineering culture through audits, comparison with sectoral benchmarks and training. The result was that our power and fuel cost as a percentage of our overall revenues declined from 23.51% in 2012-13 to 16.85% in 2016-17. We are pleased to state that this priority also extended to the consumption of water, an area of growing importance in a world where water is becoming increasingly scarce. The Company reported a

Company followed on its production of

116776 tonnes

in 2016-17.

sizable reduction in water consumption per tonne of the end product, strengthening our sustainability.

Q: What initiatives were taken to grow the business?

A: The Company embarked on the decision to proceed towards the manufacture of white high bulk paper in the writing & printing segment, which enhances value for the Company and for the consumer. The full impact of this initiative will be reflected in the Company's working in 2018-19. Within the kraft segment, the Company intends to graduate its product mix from a 20 burst factor (BF) to 22-25-28-35 BF range that is expected to enhance realisations. Besides, we intend to graduate from the 350 ply-bond commodity segment to the 650 ply-bond DTY variety (manufactured through the resource-efficient digester route) that is used in the manufacture of cones used in the textile industry. We intend to introduce a kraft variety with a special brown tint that should enhance realisations and market

acceptability.

Q: How does the Company intend to scale output?

A: The Company will sustain what has worked well for it in the past – a continuous de-bottlenecking of existing component capacities with the objective to generate a larger throughput: a projected production of 128,000 tonnes in the current financial year, rising to around 135,000 tonnes in 2018-19. We believe that the combination of enhanced scale, lower cost and higher average realisation should translate into enhanced value for all those associated with our company.

How we have selected to do business

Our business model is based on various imperatives

Diversification of offerings

Instead of remaining dependent on one product type, the Company prudently diversified products across kraft paper and writing & printing paper. The result is that 37.81% revenues were generated from kraft paper and 62.19% from writing & printing paper, representing adequate de-risking in the event of a decline in offtake or realisations in any one segment.

Margins-driven

The Company focuses on improving margins, emphasising the fact that it is a bottomline-driven company. By focusing on niche products, Ruchira has extended beyond the challenges of the mass market, enhancing realisations and profitability. The Company's EBITDA margin strengthened year-to-year.

Locational advantage

The Company is located in Himachal Pradesh, well connected to state and national highways as well as the principal resource-providing pockets of Punjab and Haryana on the one hand and principal product consuming markets on the other. The result is that the Company's logistics cost is among the lowest in India's paper industry.

Foresight

Ruchira has been agro-based since inception. The Company anticipated a gradual raw material shift from wood towards renewable and environment-friendly organic waste material, making it possible to moderate its carbon footprint. The entire bulk of the Company's raw material was derived from agricultural and renewable resources in 2016-17.

Pan-India presence

The Company has built a pan-Indian distribution presence to market writing & printing paper varieties; its kraft paper varieties are largely sold within a 300 km radius from its manufacturing facility (in Jammu & Kashmir, Punjab, Haryana, Himachal, Gujarat and Maharashtra).

Robust Balance Sheet

Ruchira has used a prudent balance of debt and accruals to fund its growth in a capital-intensive sector. Besides, the Company has selected to repay long-term debt related to erstwhile expansion projects before embarking on the next expansion round, limiting its risk. The Company had a modest gearing of ₹28.60 crore coupled with net worth of ₹152.75 crore as on 31 March 2017

Efficient working capital management

The Company has remained relatively under-leveraged following the manufacture of niche and value-added varieties, helping shrink the receivables cycle. The result is that working capital as a proportion of total employed capital was a modest 18.70% in 2016-17; the working capital limit sanctioned by the banks was not fully drawn; the Company enjoyed excellent trade terms, translating into low inventories and modest receivables.

How our passion for sustained value-engineering translated into attractive operational gains

OUR VALUE ENGINEERING FOCUS

Bigger production bang for our buck

In a capital-intensive business, we focused on generating a larger return from investments in the overall business. The various initiatives have focused on commissioning assets at the lowest cost, shortest time and highest efficiency. An increased output from every crore of financial investment in the business underlined the core profitability of the business.

Production per crore of capital employed (₹)

Core commitment

The Company invested in production abilities and capabilities through good markets and bad, considered to be among the most challenging sectoral periods, making it possible for the Company to have adequate production ability on its books at a time of sectoral uptrend. Besides, the Company is among the largest agro-based paper manufacturers in North India, strengthening its brand and procurement economies.

Gross block (₹ / crore)

Growing output

The Company has sustained production growth through ongoing de-bottlenecking, making it possible to amortise fixed costs more efficiently, capitalise on procurement economies and address growing customer needs with timely product availability.

Production (tonnes)

Product mix

The Company has progressively evolved its product mix: towards writing & printing paper. This has empowered the Company to move products faster, generate superior realisations and establish its brand in a growing product segment.

% of revenues from writing & printing paper

Niche value-added

The Company progressively extended from the manufacture of ordinary writing & printing varieties to value-added versions. The Company introduced coloured paper in 2011; the proportion of revenues derived from this niche has steadily grown; this variety generates a premium per kg over the prevailing writing & printing paper average.

% of writing & printing paper revenues from coloured paper

Water-efficient

Over the years, the Company invested in cutting-edge technologies with the objective to moderate water consumption: from 75 metre cube per tonne of writing & printing paper manufactured in 2010-11 to 45 meter cube per ton for WPP in 2016-17. The Company moderated water consumption through the proactive investment in an imported effluent treatment plant (French technology), chemical recovery system and an online water monitoring system (the one of the first among agro-based paper manufacturers in region).

Water consumption (metre cube) per tonne of kraft paper Water consumption (metre cube) per tonne of writing/printing paper

Productivity

Over the years, the Company has enhanced per person productivity, indicating a competent workforce through training, multi-skilling and knowledge enhancement, strengthening overall business value.

**FINANCIAL
IMPACT**

Revenues, 2016-17
Turnover (₹ / crore)

Definition: An increase in revenues without deducting tax and excise duties.

Why we measure: To measure the Company's ability to comprehend demand trends and respond with prudent changes cross the entire value chain.

Performance: The Company's total sales reported a CAGR of 7.49% in the five years, increasing from ₹297.79 crore in FY13 to ₹427.36 crore in FY17.

Working capital efficiency

Working capital as % of capital employed
Revenue derived from a rupee of working capital

Definition: Working capital expressed as a percentage of capital employed.

Why we measure: The lower the percentage indicates business efficiency and the ability of the Company to reinvest surpluses in business growth.

Performance: The Company monetised product superiority through attractive terms of trade, which moderated finished inventory and accelerated receivables. The Company's turnover grew 50.33% between 2011-12 and 2016-17, the Company's working capital limits remained unchanged at ₹38.80 crore (only 75 to 80% of this amount being drawn). In turn, this fiscal efficiency translated into a lower gearing, lower interest outflow and rising interest cover.

Raw material flexibility

Raw material cost as % of revenues

Definition: Raw material cost as a percentage of revenues.

Why we measure: This indicates the efficiency with which the Company's resource costs are covered.

Performance: The Company works with a mix of agro-based material (wheat straw, bagasse and kan sarkanda), diversifying its dependence from any one material. Bagasse is dependent on cane planting; wheat straw is available across the year, strengthening quality consistency and cost management.

Capital cost per tonne

Capital cost per tonne (₹)

Definition: Derived from dividing gross block by total production

Why we measure:

This indicates the competitiveness of the Company when compared with peer companies

Performance: The preference for accrual-based investing has translated into a relatively small Balance Sheet in a capital-intensive sector.

Receivables management

Receivables in terms of days of turnover equivalent

Definition: The division of the turnover by the total receivables at the end of the financial year multiplied by the total number of days in a year.

Why we measure: To assess the number of days of receivables outstanding, the lower the better.

Performance: The Company's receivables cycle has reduced significantly from 49.15 days in FY14 to 37.40 days in FY17, indicating a faster receivables inflow, thereby moderating our working capital requirement.

Gearing

Debt-equity ratio

Definition: Debt divided by equity (net worth).

Why we measure: To assess the extent to which the Company is borrowed.

Performance: The Company's gearing (based on long-term debt) strengthened from 0.51 in FY14 to 0.19 in FY17.

Interest cover

Interest cover (x)

Definition: The division of EBITDA by interest outflow.

Why we measure: To assess the Company's financial strength and ability to pay interest/debt with ease.

Performance: The Company's interest cover was a comfortable 8.74x in FY17, as compared to previous year's 7.46x, a reflection of attractive gearing and opportunity for fresh borrowings without compromising corporate stability.

ENHANCED VIABILITY

Return on capital employed (RoCE), 2016-17

Return on Capital Employed (RoCE) (%)

Definition: The financial ratio that measures a company's profitability and the efficiency with which capital is employed in the business. The financial ratio derived from the EBITDA divided by total average capital employed by the Company and the amount deployed in the business.

Why we measure: To assess the investment effectiveness, captured as a result of all our diverse initiatives, validating the strength of the business model.

Performance: The Company reported an RoCE of 31.86% in FY17, which is a 442 bps increase over last year's 27.44%, resulting in the generation of higher value for shareholders.

Return on net worth

Return on Net worth (RoNW) (%)

Definition: The financial ratio derived from the Net Income divided by total shareholder's equity.

Why we measure: This is also called Return on Equity (ROE). This is a measure that calculates the profit a company generates with each rupee of shareholders' funds.

Performance: Our RoNW strengthened from 16.13% in FY16 to 20.98% in FY17.

EBITDA

EBITDA (₹ / crore)

Definition: The earnings measured before the deduction of interest, depreciation, extraordinary items and tax.

Why we measure: To measure the Company's operating profitability, despite inflationary pressures and easily comparable with respective average and sectoral peers.

Performance: The Company's EBITDA reported a 33.11% increase Y-o-Y in FY17, from ₹47.53 crore in FY16 as a result of on-time capacity investments, cost optimisation and changes in product mix.

EBITDA margin

Operating Margin Movement (EBITDA Margin) (%)

Definition: The measure of percentage points in operating profit before interest, depreciation, exceptional items and tax when divided by the Company's turnover.

Why we measure: To assess the business efficiency and to comprehend the earnings of a company (before accounting for business and taxes) on each rupee of sales.

Performance: The Company's EBITDA profit margin increased from 13.10 in FY16 to 15.16 in FY17, reporting an increase of 206 bps, derived from improved operating efficiencies.

OUR OPERATIONS

Manufacturing

Overview

- The Company is the one of the largest manufacturers of kraft and writing & printing paper in Northern India from agro feedstock
- The Company has a wide range of products in kraft paper and writing & printing paper
- For the kraft paper plant, the electricity was sourced from the H.P State Electricity Board, while for writing & printing paper, the Company possessed power co-generation plant for captive consumption

- The Company's principal raw material comprised agricultural residue like wheat straw, bagasse and sarkanda etc.
- The Company's water requirements were sourced from ground water through tube-wells

Highlights, 2016-17

- Production increased by 27.67% for kraft paper
- Production increased 6.96% for writing & printing paper
- Power consumption rationalised from 4.29% of revenues to 4.01%

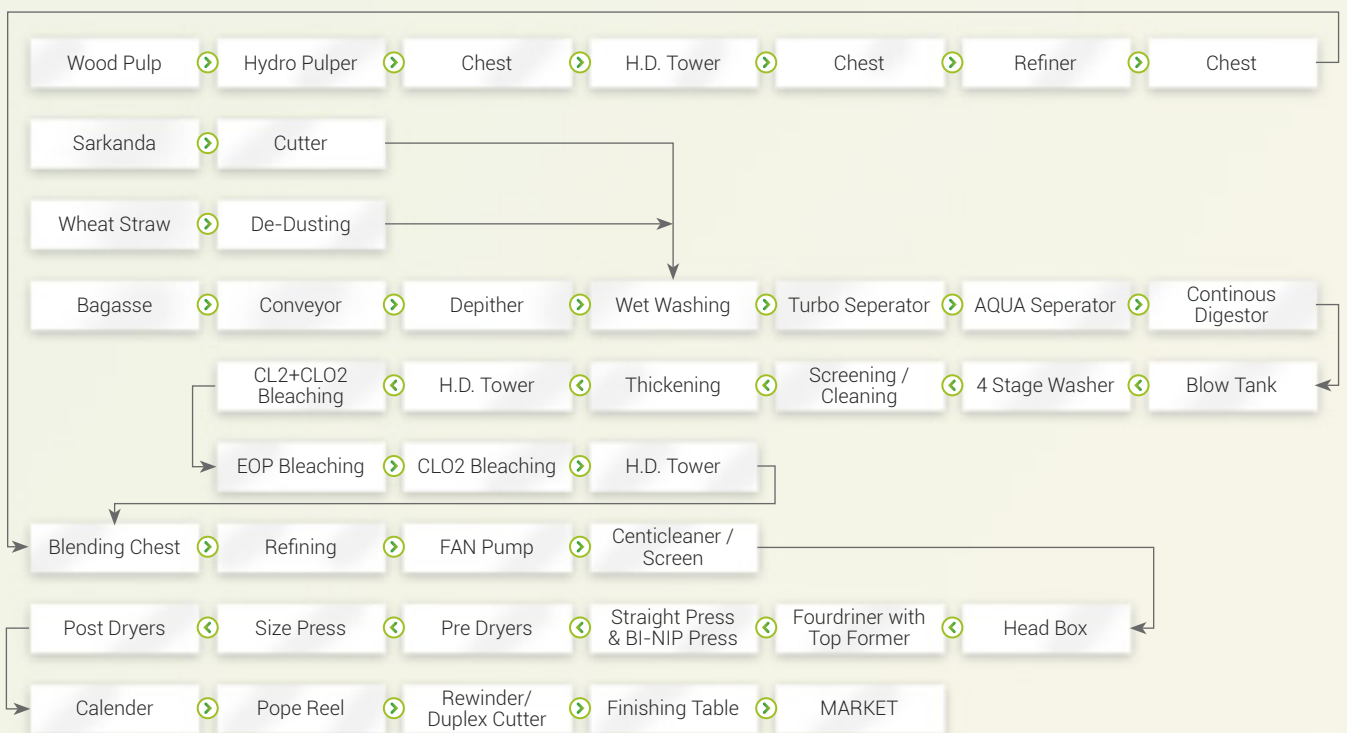

- Less power was consumed in the manufacture of kraft as well as writing & printing paper
- Water consumption moderated 23.40% due to de-bottlenecking initiatives

Outlook, 2017-18

- The Company intends to launch various value-added products for kraft as well as writing & printing paper
- The Indian Government's growing educational focus is expected to increase the demand for writing & printing paper varieties

OUR OPERATIONS

Marketing

Overview

- Ruchira Papers has established a reputation and respect for quality products
- This quality has been showcased in the brightness and cleanliness of writing & printing paper on the one hand and a higher burst factor of kraft paper on the other
- The Company's products are marketed through an extensive and long-standing network of dealers and distributors

- The strengths of the Company's quality and distribution capability are reflected in the speed of product offtake, high proportion of repeat business from existing customers, negligible inventories, realisations higher than the prevailing average and the ability to market a large proportion of products within 300 kms of the manufacturing facility
- The Company marketed 3 to 4 Kraft varieties and 7 to 8 Writing & Printing paper varieties

Highlights, 2016-17

- The Company's average realisations remained almost same as compared to previous year
- The Company added various new dealers; marketing extended to Chennai and Bangalore

Outlook, 2017-18

The Company intends to market products wider and deeper and planning to add more value added products to its products list.

OUR OPERATIONS

Finance

Overview

- The Company possesses a strong Balance Sheet
- The strengths of the Balance Sheet are reflected in low gearing, low cost of debt and attractive margins
- The Company had worked with around the same working capital quantum since 2012 even as turnover has grown – from ₹284.28 crore in 2011-12 to ₹427.36 crore in 2016-17

Highlights, 2016-17

- The Company reported an increase of 15.11% in its revenues over the previous year
- The Company reported profitable growth – PAT increased 64.61%

Outlook, 2017-18

- The Company will continue to invest in plant modernisation and de-bottlenecking
- The Company intends to introduce new products, generating higher revenues

Management discussion and analysis

Global economic overview

The pace of global economic activity was mixed in 2016 as a number of crosswinds affected re-acceleration. The year was marked by the United Kingdom's decision to exit the European Union and the election of Donald Trump as the American President. Within advanced economies, comprising the US, Europe and Japan, a protracted monetary policy support and return to fiscal neutrality

underpinned a generally-accelerating output. In countries outside the advanced economies, the sources of slower growth comprised commodity price declines, overhangs from erstwhile credit growth and political turmoil.

Global growth was 3.1% in 2016, the forecast revised downwards by 10 bps for 2017 compared to the April 2016 projections. Long-term prospects of

emerging market economies improved following a decline in interest rates in advanced economies and firming commodity prices.

Asia and India demonstrated robust growth. The currencies of advanced commodity exporters have also strengthened, reflecting the firming of commodity prices; however, several emerging market currencies depreciated substantially.

Growth	2016	2017(E)	2018 (P)
Global economy	3.1%	3.4%	3.6%
Advanced economies	1.6%	1.9%	2.0%
Emerging market and developing economies	4.1%	4.5%	4.8%

(Source: IMF)

Outlook

The global economy entered its sixth year of stagnation with growth estimates for 2017 continuing to trend the historical path. A projected stabilisation in energy and commodity prices may strengthen the case for resource-rich economies in 2017.

World growth is expected to rise from 3.1% in 2016 to 3.5% in 2017 and 3.6% in 2018, driven by stronger economic activity, expectations of robust global demand, reduced deflationary pressures and optimistic financial markets.

Indian economic overview

The Indian economy slowed in 2016-17 to 7.1% from 7.9% in FY2015-16, largely owing to the currency demonetisation in the third quarter

of the financial year under review. However, the general undercurrent continued to be optimistic; India's consumer confidence index stood at 136 in Q4 2016, the highest in the world.

India retained its position as the fastest growing major economy in the world catalysed by strong consumption growth and enhanced government spending. Inflation declined on account of a decline in food inflation. This facilitated a 50 basis points rate cut by the RBI in 2016-17. A declining vulnerability on the external and fiscal front and fiscal consolidation by the government enhanced investor confidence that translated into record net foreign exchange inflows.

The year under review was also marked by the government's demonetisation initiative and the

preparatory work related to the introduction of the goods and services Tax (GST). While the first initiative focused on eliminating the parallel economy, the second is expected to transform the country's taxation structure.

India's youth literacy levels have increased from 81.1% in 2006 to 89.7% in 2015. The gross enrolment ratio for tertiary education increased from 11.5% in 2006 to 23.9% in 2013

(Source: UNESCO).

Outlook

India's growth is projected to be among the fastest growing global economies between 2016 and 2020; the country is projected to emerge as the 3rd largest economy and its GDP approximately trebling to \$7 trillion by 2030. The adoption of the Goods and Service Tax

promises to create a unified taxation regime.

(Source: Oliver Wyman).

Normal 2017 monsoons and reduced commodity prices are expected to catalyze economic growth.

The Asian Development Bank expects the Indian economy to grow at an accelerated 7.4% in 2017-18 and 7.6% in 2018-19, retaining its position as the world's fastest-growing major economy.

Indian paper industry – sectoral overview

Despite digitisation becoming a ubiquitous phenomenon around the world, the paper industry in India has seen demand accelerate on the back of increasing literacy, growing GDP and enhanced disposable incomes. The Government of India's decision to establish rules and regulations to control the degradation of forests has caused the focus of key sectoral players to shift in favour of eco-friendly products and technologies.

The Indian paper sector has a cumulative capacity of ~15 million tonnes per annum and a turnover of ~₹50,000 crore, thereby accounting for a 3% share of the global output. Of the 750 paper mills across the country's fragmented paper industry, only 50 have the capacity to produce 50,000 or more metric tonnes per annum. ~70% of the total installed capacity is spread across the states of Gujarat, West Bengal, Odisha, Andhra Pradesh, Karnataka and Maharashtra. The Indian paper industry provides direct employment to >5 lakh people and indirectly to 15 lakh people. Between FY2012-13 and FY2016-17, investments worth ₹20,000 crore and ₹25,000 crore were infused into the sector so as to scale capacities, upgrade technologies and foster mergers and acquisitions. The current industry demand has been pegged at ~16 million tonnes with over 2 million tonnes being imported annually. Imports have risen at a CAGR of 11.4%

in terms of value (from ₹7,152 crore in 2010-11 to ₹12,284 crore in 2015-16) and 7.9% in terms of volume (from 1.8 million tonnes to 2.6 million tonnes over the same period). Import duties on paper and paperboard have declined from a base rate of 10% to nil, affecting fresh capacity creation

(Source: IBEF)

India is the fastest-growing paper market globally. The industry is growing at a rate of more than 7% and is expected to grow at over 4% per annum till 2030.

Writing and printing: In recent years, electronic telecommunications have significantly reduced the use of paper. The easy availability of data from discs and computers seem more appealing and economic. Print media in India grew by 61% during the last decade while print circulation increased at a CAGR of 4.87% to 62.8 million a day during the same period. Looking ahead, print advertising is expected to account for about \$2.8 billion of the total ~US\$9.5 billion advertising market in 2017. The past years have witnessed a significant shift in technology, with customers choosing cost-effective ink tank printers compared to laser printers. Hence, there is a huge potential for the country's paper and print industry driven by the need for high-quality products. The proof: the production of print machinery registered a y-o-y growth of 20% in the last few years. It is estimated that the size of the Indian printing industry will reach US\$ 29.3 billion in 2017 from US\$ 24.3 billion in 2014, growing at a rate of 6.8%. This includes packaged and published printing segments. The published printing segment is projected to grow from US\$ 3.9 billion in 2014 to US\$ 4.5 billion in 2017 primarily driven by an increasing population, growing literacy and a burgeoning economy. India offers additional advantages in terms of low labour costs, English language proficiency, design capabilities, talent pool and technology platforms for

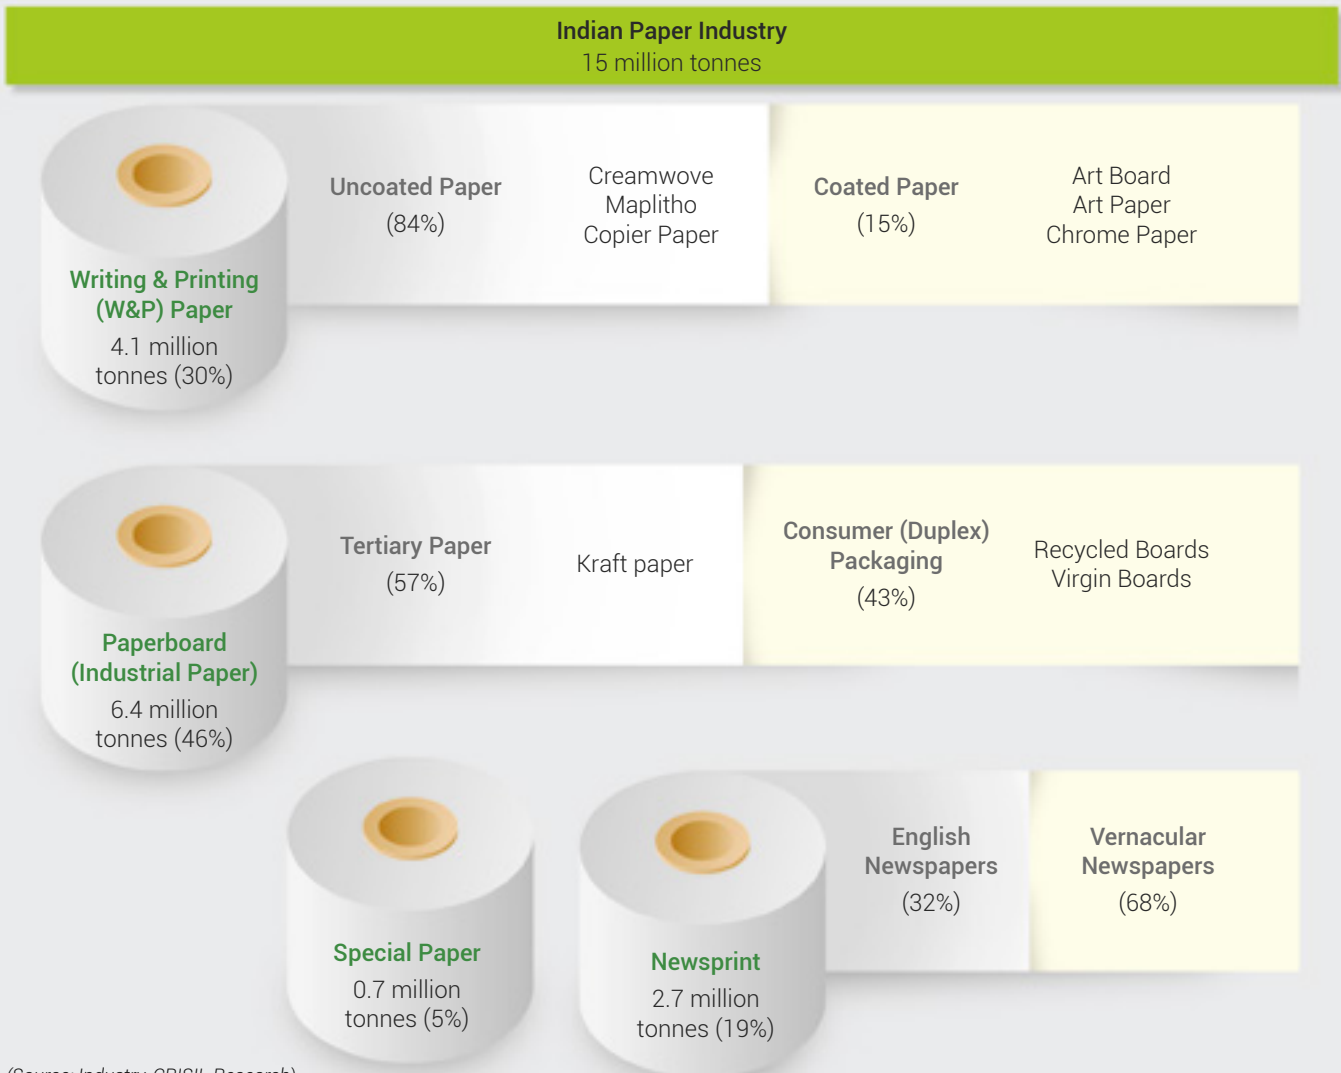

international clients from the US, the UK and Japan. With the country's per capita consumption being one of the lowest (10 kilograms), the industry's export prospects can be considered especially bright. In line with this, the Government of India has acknowledged the paper sector as one of the 35 listed high-priority industries. The Central Government's thrust on policies such as Right to Education and Sarva Shiksha Abhiyan will significantly contribute to the growth of this segment. The impact of the GST is yet to be seen, with the council setting a rate of 28% on all printers and further revising the rates for single function printers to 18%.

Packaging and paperboard: Broadly catering to the tertiary and flexible packaging needs of industries such as FMCG, pharmaceuticals and textiles, the packaging paper and board segment accounts for a 46% share of the domestic paper industry. Growth in this sector has been fuelled by increasing urbanisation and deepening penetration of organised retailing and accelerating growth in FMCG and pharmaceutical sectors. Another factor that has provided a substantial stimulus to the packaging machinery industry is the rapid growth of exports, which requires superior packaging standards for international markets. The packaging industry grew at a rate of 7.8% during the year, contributing to ~43% of the total print product sales. The market size of the packaged printing sector is pegged to increase from US\$ 10.2 billion in 2014 to US\$ 12.7 billion in 2017, driven by an increasing demand for non-commodity consumer goods in developed countries in the Asia-Pacific. The paperboard packaging segment is valued at ₹100 billion and is forecast to grow at a rate of 11.4% per annum to reach US\$ 32 billion by 2020.

SWOT analysis

Strengths

Large and growing domestic paper market
 Relatively low personnel and fuel costs
 State-of-the-art R&D
 In-depth knowledge of non-wood pulping applications

Robust demand
 Thorough knowledge of local markets

Opportunities

Availability of cost-competitive labour
 Domestic market potential
 Increased investment in the education sector
 Growing literacy rates
 Manufacturing excellence
 High-end technology platform
 Rising demand from FMCG and pharma sectors

Weaknesses

Fibre shortage
 Small and fragmented industry structure
 Dearth of skilled manpower
 Quality and availability of some of the domestic pigments and chemicals
 Environmentally-unfriendly practices
 Outdated automation in the unorganised vertical

Threats

Lack of superior pricing power
 Threat of imports
 Increased dependency on imported raw materials
 Fluctuating input costs
 Environmental restrictions
 Stagnating capex investments
 Capacity constraints

Demand drivers

Emerging trend	Growth in online retail
What it means	India's e-commerce market's growth rate of 51% is expected to increase to \$120 billion in 2020
Impact on the Indian paper industry	The increasing demand for packaging materials such as cartons and envelopes will enhance sectoral prospects
Impact on Ruchira Papers Limited	Stronger offtake of paperboard required for the packaging of consumer products
Emerging trend	Growth in the services sector
What it means	India's 16%-plus annual growth rate in the services sector between 2006 and 2014 has been driven by export of IT and BPO services
Impact on the Indian paper industry	With India's service sector growing robustly, the use of paper should increase manifold
Impact on Ruchira Papers Limited	This can bolster the offtake of writing and printing products
Emerging trend	Expanding domestic workforce
What it means	India's work-force is expected to increase to 940 million by 2021
Impact on the Indian paper industry	An increasing workforce will entail a greater dependence on paper work coupled with computing
Impact on Ruchira Papers Limited	Rising paper consumption is expected to drive profit margins of the paper manufacturing sector

Emerging trend		Increasing student enrolment
What it means	Between 2000-01 and 2013-14, the number of children who enrolled in primary schools increased by 1.86 crore and at the upper primary level by >2 crore	
Impact on the Indian paper industry	Assuming that each student uses 10 kilograms of paper a year, the enrolment of 1 crore students could result in an additional demand of ~1 lakh tonnes of paper	
Impact on Ruchira Papers Limited	Increasing student enrolments could ensure steady sales for the writing & printing vertical	
Emerging trend		Conducive Budgetary initiatives
What it means	The Union Budget 2017-18 has allocated a sum of ₹79,685.95 crore for the education sector, up by 9.9% from ₹72,394 crore in 2016-17	
Impact on the Indian paper industry	The greater financial freedom accorded to extant programmes (Sarva Sikhsa Abhiyan) and new ones (Prime Minister's Research Fellowship) bodes well for the paper sector	
Impact on Ruchira Papers Limited	With the Central Government spending more on improving the country's educational infrastructure, the growing offtake of writing and printing products could be sustained	
Emerging trend		Growing national consumption
What it means	Between 2006 and 2015, India's middle-class households saw a 2.9x increase in per capita consumption levels	
Impact on the Indian paper industry	The swelling demand for FMCG products, pharmaceuticals and packaged ready-to-eat foods are driving the use of paperboards and packaging material	
Impact on Ruchira Papers Limited	Rising consumption levels should drive revenues and help the Company amortise fixed costs better	
Emerging trend		Urbanisation-fuelled job growth
What it means	32% of the country's population resides in urban India and this metric is expected to rise to 40% by 2030	
Impact on the Indian paper industry	More jobs in urban locations could entail a sizeable increase in paper demand	
Impact on Ruchira Papers Limited	Increased demand for the Company's products could strengthen long-term profitability	
Emerging trend		Back-up documentation option
What it means	Paper serves as a backup option, as digitised versions are vulnerable to malicious software, power outages and unforeseen deletions	
Impact on the Indian paper industry	India has had an affinity for traditional paper-based documentation	
Impact on Ruchira Papers Limited	This need for backup documentation could strengthen the demand for writing and printing paper

Outlook

A rise in the consumption of paper by 1 kilogram per capita could result in a demand increase by an estimated 1.25 million tonnes. Compared to a per-capita consumption global average of 58 kilograms, India's per capita consumption is a mere 10 kilograms, leaving ample opportunity for growth. Additionally, the paper consumption is expected to grow by 53% to ~20 million tonnes by 2020 and to ~23.5 million tonnes by 2024-25. The demand for writing and printing paper is projected to grow at a CAGR of 4-5% over the next five years, in comparison to 3.6% between 2010-11 and 2015-16, owing to the rise in literacy rate and demand from the education sector strengthens. Paperboard demand is expected to grow at a healthy rate of 7-8% over the next five years owing to the rising sales

of consumer durables, FMCG products, readymade garments, pharmaceuticals and e-commerce. Given this optimism, a million tonnes of integrated pulp, paper and paperboard capacity needs to be created annually to address the growing demand. This investment could result in a gross capital formation of ₹8,500 crore per annum and provide direct employment to an additional 15,000 people per year

Ruchira's product basket

The Company is primarily engaged in the manufacture of writing and printing paper and kraft paper.

Writing and printing paper: This type of paper is mainly used in manufacturing notebooks and other writing material. The colored paper is used to fabricate

spiral notebooks, wedding cards, shade cards, children's colouring books, coloured copier paper and bill books among other uses. The Company produced about 50,351 metric tonnes of this paper variety in 2016-17.

Kraft paper: This product finds application in the packaging industry for making of corrugated boxes, cartons and other packaging material. The specialty of the Company's kraft paper is that it has a high load bearing capacity and tensile strength which is useful for corrugated packaging applications. Ruchira also manufactures a special grade of kraft paper known as DTY grade and POY grade. These are used to produce textile tubes and paper core-pipes. The Company produced about 66,426 metric tonnes of kraft paper in 2016-17.

Risk management

The management of risk requires a process of identification, assessment and management of existing and potential risks. The Company strives to ensure that these risks are controlled in an efficient and timely manner.

Business environment risk

The paper industry is mature and capital-intensive. Competition and changes in the supply-demand in the industry could impact profitability.

The Company enjoys adequate access to low-cost supplies and proactively manages costs from spiraling out of control.

Raw material risk

Non-availability of raw materials used in manufacturing can cause disruptions in the day-to-day operations of the Company.

The primary raw material used by Ruchira is agriculture residue i.e. bagasse (a byproduct of the sugarcane industry), wheat straw and other long-fibres like softwood, indigenous waste paper, among others, which are easily available.

Climate change risk

With the adverse effects of climate change becoming increasingly manifest, paper manufacturers are seeking ways and means to reduce their carbon footprints.

The Company as a matter of principle has implemented clean, affordable and safe energy practices required for the transportation of raw materials and production of finished goods. It has taken a number of decisive steps to reduce its energy consumption.

Market risk

The paper industry market is extremely volatile and is susceptible to risks that arise from changes in demand, price, competition, customers, suppliers and raw materials.

Ruchira regularly monitors and evaluates these factors to get a 360-degree perspective of the Company's fiscal health.

Human resource risk

A talented and hardworking human pool is the key to the Company's success. Hence, any unforeseen attrition could pose a threat to the Company's profitability.

The Company evaluates the competence of its personnel through routine surveys and in-depth assessments. Structured programmes are conducted to train employees and implements annual succession plans as a hedge against attrition.

Internal control systems and their adequacy

Given the magnitude and nature of its business, the Company needs to maintain sound and commercial practice with an effective internal control system. The system ensures that all transactions are authorised, recorded and reported correctly to safeguard assets and protect them from any loss due to unauthorised use or disposition. Internal audit reports are prepared to create awareness and to take corrective actions on the respective units or areas, which need rectification.

Human resources

The Company believes that a motivated and efficient workforce can help it attain its targets. Taking cognisance of that fact, the Company provides extensive training to its employees in order to develop their skill sets and keep them motivated. As on March 31, 2017, it had an employee base of 997 people.

Nomination and Remuneration Policy of Ruchira Papers Limited

Introduction

In terms of the provisions of the Companies Act, 2013 and SEBI (LODR) Regulations, 2015 (earlier old listing agreement) the Company has formulated "Nomination and Remuneration Policy." This policy on nomination and remuneration of Directors, Key Managerial Personnel and Senior Management has been formulated by the Nomination and Remuneration Committee and approved by the Board of Directors of the Company. This policy shall supersede the earlier "Nomination and Remuneration Policy" as approved by the Board of Directors on 28th May 2014.

I. Definitions

1. "Act" means the Companies Act, 2013 and Rules framed there under, as amended from time to time.
2. "Board" means Board of Directors of the Company.
3. "Company" means Ruchira Papers Limited.
4. "Directors" mean Directors of the Company.
5. "Committee" means Nomination and Remuneration committee of the Company as constituted or re-constituted by the Board, from time to time.
6. "Key Managerial Personnel" means
 - i. Managing Director, or Chief Executive Officer or Manager and in their absence, a Whole Time Director;
 - ii. Chief Financial Officer;
 - iii. Company Secretary; and
 - iv. Such other officer as may be prescribed.
7. "Senior Management" means the personnel of the company who are members of its core management team excluding Board of Directors comprising all members of management one level below the executive directors, including the functional heads.
8. "Independent Director" is as provided under SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015 and Companies Act, 2013.

II. Objectives

The Key Objectives are:

1. To guide the Board in relation to appointment and removal of Directors, Key Managerial Personnel and Senior Management.
2. Formulate the criteria for determining qualifications, positive attributes and independence of a director and recommend to

the Board a policy relating to the remuneration of Directors, key managerial personnel and other employees.

3. Formulation of criteria for evaluation of Independent Director and the Board.
4. To evaluate the performance of the members of the Board and provide necessary report to the Board for further evaluation of the Board.
5. To recommend to the Board on Remuneration payable to the Directors, Key Managerial Personnel and Senior Management.
6. To provide to Key Managerial Personnel and Senior Management reward linked directly to their effort, performance, dedication and achievement relating to the Company's operations.
7. To retain, motivate and promote talent and to ensure long term sustainability of talented managerial persons and create competitive advantage.
8. To develop a succession plan for the Board and to regularly review the plan.
9. To assist the Board in fulfilling responsibilities.
10. To implement and monitor policies and processes regarding principles of corporate governance.

III. Constitution of Nomination and Remuneration Committee

The Board of Directors of the Company constituted the committee known as the "Nomination and Remuneration Committee" consisting of three non-executive directors out of which not less than one-half are independent directors. The Chairman of the Committee is an Independent Director.

IV. Policy for appointment and removal of Director, KMP and senior Management

1. Appointment Criteria and Qualification

- a) The Committee shall identify and ascertain the integrity, qualification, expertise and experience of the person for appointment as Director, KMP or at Senior Management level and recommend to the Board of his / her appointment.
- b) A person should possess adequate qualification, expertise and experience for the position he/ she is considered for appointment. The Committee has discretion to decide whether qualification, expertise and experience possessed by a person are sufficient/ satisfactory for the concerned position.

Annexure-III to Directors' Report

- c) The Company shall not appoint or continue the employment of any person as Whole-time Director who has attained the age of seventy years. Provided that the term of the person holding this position may be extended beyond the age of seventy years with the approval of shareholders by passing a special resolution based on the explanatory statement annexed to the notice for such motion indicating the justification for extension of appointment beyond seventy years.
- d) A whole-time KMP of the Company shall not hold office in more than one Company except in its Subsidiary Company at the same time. However they can be appointed as Director in any Company with the permission of the Board of Directors of the Company.

2. Term/Tenure

a) Managing Director/ Whole Time Director

The Company shall appoint or re-appoint any person as its Executive Chairman, Managing Director or Executive Director for a term not exceeding five years at a time. No re-appointment shall be made earlier than one year before the expiry of term.

b) Independent Director

An Independent Director shall hold office for a term up to five consecutive years on the Board of the Company and will be eligible for re-appointment on passing of a special resolution by the Company and disclosure of such appointment in the Board's report.

No Independent Director shall hold office for more than two consecutive terms of up to maximum of 5 years each, but such Independent Director shall be eligible for appointment after expiry of three years of ceasing to become an Independent Director. Provided that an Independent Director shall not, during the said period of three years, be appointed in or be associated with the Company in any other capacity, either directly or indirectly.

At the time of appointment of Independent Director it should be ensured that number of Boards on which such Independent Director serves is restricted to seven listed companies as an Independent Director and three listed companies as an Independent Director in case such person is serving as a Whole-time Director of a listed company or such other number as may be prescribed under the Act.

Every Independent Director shall at the first meeting of the Board in which he participates as a director and thereafter at the first meeting of the Board in every financial year or whenever there is any change, give a declaration that he meets the criteria of independence.

c) Evaluation

The Committee shall carry out evaluation of performance of

every Director including Independent Director, KMP and Senior Management Personnel at regular interval (yearly). Based on the evaluation performance report of the board, it shall be determined whether to extend or continue the term of appointment of the independent Directors

d) Removal

Due to reasons for any disqualification mentioned in the Act or under any other applicable Act, rules and regulations there under, the Committee may recommend, to the Board with reasons recorded in writing, removal of a Director, KMP or Senior Management Personnel subject to the provisions and compliance of the said Act, rules and regulations.

e) Retirement

The Directors, KMP and Senior Management Personnel shall retire as per the applicable provisions of the Act and the prevailing policy of the Company. The Board will have the discretion to retain the Director, KMP, Senior Management Personnel in the same position/ remuneration or otherwise even after attaining the retirement age, for the benefit of the Company.

This policy shall be reviewed by Nomination and Remuneration Committee as and when any changes are to be incorporated in the policy due to change in regulations or as may be felt appropriate by the Committee. Any changes in the policy shall be approved by the Board of Directors.

Annexure-IV to Directors' Report

Particulars of Energy Conservation, Technology Absorption and Foreign Exchange Earnings and Outgo required under the Section 134(3)(m) of the Companies Act, 2013 read with Rule 8(3) of the Companies(Accounts) Rules, 2014.

A) CONSERVATION OF ENERGY

i) Energy conservation is continued to be an important thrust area for the Company and is continuously monitored. The steps taken or impact on conservation of energy were:

1. We have improved steam and condensate system and installed isolated condensate tanks to utilize the steam condensate to the power boiler which resulted saving in thermal energy.
2. The automatic start and stop controls and hour time totalizer are provided in various equipments and pumps to achieve optimization of running hours, improvement in efficiencies which resulted in saving of electrical energy.
3. In power boiler, we have provided a bucket elevator for the sand charging to furnace boiler bed. This has reduced the ingress of the extra Air to the furnace hence reduction in ID Fan Air load resulted saving in steam.
4. At stock preparation, the process has been modified. With this modification, we are able to save power for running pump, motor and agitators which was earlier required for functioning of one chest.
5. Heat Exchanger is provided on continuous digester black liquor for blow heat recovery. This heat is utilized for hot water for the process improvement.
6. Gland cooling water, mechanical seal lubrication water is being re-circulated. Besides this fresh water pump header's modified resulted in saving of water and electrical energy.

ii) The steps taken by the Company for utilizing alternate source of energy:

The Company is generating steam from Chemical Recovery Boiler, wherein Black Liquor Dry Solids is fired to generate the steam and the same is confirmed as Renewable Biomass Source by Ministry of New & Renewable Energy, Govt. of India.

Report on Corporate Governance

COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE

Corporate Governance is essentially a system by which Companies are governed and controlled by the management under the direction and supervision of the Board in the best interest of all stakeholders. It is not mere compliance of laws, rules and regulations, but also the application of best management practices and adherence to the highest ethical principles in all its dealings, to achieve the objects of the Company, enhance stakeholder value and discharge its social responsibility. Above all, it is a way of life, rather than merely a legal compulsion.

Your Company's philosophy on the Code of Governance is based on the belief that effective Corporate Governance practices constitute a strong foundation on which successful commercial enterprises are built to last. Good Corporate Governance is indispensable to resilient and vibrant capital markets and is, therefore, an important instrument of investor protection. Your Company lays great emphasis on a corporate culture of conscience, integrity, fairness, transparency, accountability and responsibility for efficient and ethical conduct of its business.

The Company has adopted a Code of Conduct for its employees including the Managing Director and Whole Time Directors. The Board of Directors is at the core of our Corporate Governance practice and oversees how the management serves and protects long-term interest of all our stakeholders. We believe that an active, well-informed and independent Board is necessary to ensure the highest standards of corporate governance. It is well recognized that an effective Board is a pre-requisite for strong and effective corporate governance. Our Board exercises its fiduciary responsibilities in widest sense of the term.

Your Company is in compliance with the requirements of Corporate Governance stipulated in the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations').

1. BOARD OF DIRECTORS

In terms of Company's Corporate Policy, all statutory and other significant and material information are placed before the Board to enable it to discharge its responsibilities of supervision, control and direction.

a. Size & Composition of Board of Directors:

The Board has an optimum combination of Executive and Non-Executive Directors. More than 50% of the Directors are Non-Executive Independent Directors. The Company has Three Whole Time Executive Directors and one Managing Director to look after finance, projects, commercial, technical and personnel affairs of the Company. The total number of Directors of the Company is 9(Nine) as on 31st March, 2017 consisting of 4 Executive Directors and 5 Independent Directors. None of the Independent Directors is responsible for the day to day affairs of

the Company. The Board periodically evaluates need for change in its composition and size.

None of the Directors on the Board is Member of more than ten committees or Chairman of more than five Committees across all the public companies in which he is a Director. Necessary disclosures regarding Committee positions in other public companies as on 31st March 2017 have been made by the Directors.

The Composition of the Board is in conformity with Regulation 17 of the Listing Regulations as well as the Companies Act, 2013.

Every Independent Director, at the first meeting of Board in which he participates as a Director and thereafter at the first meeting of the Board in every financial year, gives a declaration that he meets the criteria of independence as provided under law.

Evaluation of Board Effectiveness:

In terms of applicable provisions of the Companies Act, 2013 read with Rules framed there under and provisions of Listing Regulations and on the recommendation of Nomination and Remuneration Committee, the Board of Directors has put in place a process to formally evaluate the effectiveness of the Board, its Committees along with performance evaluation of each Director carried out on an annual basis. Accordingly, the annual performance of the Board, its committees and each Director was carried out for the Financial Year 2016-17.

Criteria for evaluation of individual Directors include aspects such as professional qualifications, prior experience, especially experience relevant to the Company, knowledge and competency, fulfilment of functions, ability to function as a team, initiative, availability and attendance, commitment, contribution, integrity, independence and guidance/ support to management outside Board/ Committee Meetings. In addition, the Chairman is also evaluated on key aspects of his role, including effectiveness of leadership and ability to steer meetings, impartiality, ability to keep shareholders' interests in mind and effectiveness as Chairman.

Criteria for evaluation of the Committees of the Board include mandate and composition; effectiveness of the Committee; structure of the Committee; regularity and frequency of meetings, agenda, discussion and dissent, recording of minutes and dissemination of information; independence of the Committee from the Board; contribution to decisions of the Board; effectiveness of meetings and quality of relationship of the Committee with the Board and management.

Familiarization programmes for Board Members:

The Board members are provided with necessary documents/brochures, reports and internal policies to enable them to familiarize with the Company's procedures and practices. The details of such familiarisation programmes for Independent Directors are posted on the website of the Company and can be accessed at <http://www.ruchirapapers.com/investors.html>.

Independent Auditor's Report

To The Members of
Ruchira Papers Limited

Report on the Standalone Financial Statements:

We have audited the accompanying standalone financial statements of Ruchira Papers Limited ("The Company"), which comprise the Balance Sheet as at March 31, 2017, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An Audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including

the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2017, and its profit and its cash flows for the Year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016, (the order) issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of accounts.
 - (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rule, 2014.

- (e) On the basis of the written representations received from the directors as on March 31, 2017 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2017 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B" and
- (g) With respect of the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our knowledge and belief and according to the information and explanations given to us:
- (i) The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statement.

Annexure B to Independent Auditor's Report

Referred to in paragraph 2(f) of the Independent Auditor's Report of even date to the members of Ruchira Papers Limited on the standalone financial statements for the year ended March 31, 2017

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

We have audited the internal financial controls over financial reporting of Ruchira Paper Limited ("the Company") as at March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing issued by ICAI deemed to be prescribed under section 143 (10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial control over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (iii) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, Projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the company has, in all material respects, an adequate internal financial controls system financial reporting and such internal financial controls over financial reporting were operating effectively

as at March 31, 2017, based on the internal controls over financial reporting criteria established by the Company considering the essential components over internal control stated in the Guidance Note on audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Significant Accounting Policies

A. Basis for preparation of financial statements

The financial statements are prepared to comply in all material respects with Accounting Principles Generally accepted in India (Indian GAAP), the Accounting Standards notified under the relevant provisions of the Companies Act, 2013. The financial statements have been prepared under the historical cost convention using accrual method of accounting. The financial statements are presented in Indian Rupees rounded off to the nearest rupees.

B. Use of Estimates

The preparation of financial statements in conformity with Indian GAAP requires judgments, estimates and assumptions to be made that affect the reported amount of assets and liabilities, disclosure of Contingent Liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known /materialized.

C. Own Fixed Assets and depreciation

- i) Fixed Assets are stated at cost net of recoverable taxes, trade discounts and rebates and includes amounts added on revaluation, less accumulated depreciation and impairment loss, if any. The Cost of these assets comprise its purchase price, borrowing cost and any cost directly attributable to bringing the asset to its working condition for its intended use. Subsequent expenditure relating to an item of assets are added to its book value only if they increase the future benefits from the existing assets beyond its previously assessed standard of performance. Projects under which assets are not ready for their intended use are shown as Capital Work in Progress.
- ii) Depreciation on fixed assets other than vehicles and furniture is provided on straight line method at the rates and in the manner prescribed in Schedule II of the Companies Act, 2013. Depreciation on vehicles and furniture has been provided on written down value method.
- iii) The depreciation on plant and machinery and effluent treatment plant has been provided on the rates applicable to continuous process plant.

D. Impairment of Assets

An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognized in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

E. Foreign Currency Transactions

- i) Transactions denominated in foreign currency are recorded at the exchange rate prevailing on the date of transaction or that approximate the actual rate at the date of the transaction.
- ii) Any income and expense on account of exchange difference either on settlement or on transaction is recognized in the Statement of Profit and Loss, except in the case of long term liabilities, where they relate to acquisition of fixed assets, in which case they are adjusted to the carrying cost of such assets.

F. Investments

Long term investments are stated at cost. Provision for diminution of the value of long term investments is made only if such a decline is other than temporary.

G. Inventories

- i) Inventories are valued at the lower of cost and net realizable value after providing for obsolescence, if any except in case of by-product which are valued at net realizable value. The cost is computed on First in First out (FIFO) basis.
- ii) Cost for the purpose of valuation of finished goods and goods in process is computed on the basis of cost of material, labour and other related overheads.

Significant Accounting Policies

H. Revenue recognition

- i) Revenue is recognized to the extent that is probable that the economic benefit will flow to the Company and the revenue can be reliably measured.
- ii) Sales are recognized when goods are supplied and the significant risks and rewards or ownership of the goods have passed to the buyer.
- iii) Dividend income is accounted in the year in which it is received. Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable.

I. Excise Duty

Excise duty is accounted on the basis payment made in respect of goods cleared.

J. Employee Benefits

- i) Short term benefits employee benefits are recognized as an expense in the Statement of Profit and Loss of the year in which the related service is rendered.
- ii) Post employment and other long term employee benefits are recognized as an expense in the Statement of Profit and Loss for the year in which the employee has rendered the services. The expense is recognized at the present value of the amounts payable determined using actuarial valuation techniques. Actuarial gains and losses in respect post employment and other long term benefits are charged to the Statement of Profit and Loss.

K. Borrowing Costs

Borrowing costs that are attributable to acquisition or construction of a qualifying asset are capitalized as a part of cost of such assets. Qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are recognized as expenses in the period in which they are incurred.

L. Provision for Current and Deferred Tax

Tax expense comprises both current and deferred taxes. Current tax is measured at the amount expected to be paid to the tax authorities, using the applicable tax rates. Deferred Income Taxes reflect the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of early years. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance date. Deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. Deferred tax assets are recognized on carry forward of unabsorbed depreciation and tax losses only if there is virtual certainty that such deferred tax assets can be realized against future taxable profits. Unrecognized deferred tax assets of earlier years are reassessed and recognized to the extent that it has become reasonably certain that future taxable income will be available against which such deferred tax assets can be realized.

Deferred tax assets and liabilities are measured using the tax rates and tax law that have been enacted or substantively enacted by the Balance Sheet date.

M. Segment Reporting

The company produces only Paper and accordingly the entire business has been considered as one single segment. The secondary segment is geographical determined based on the location of clients. Clients are classified as either India or Overseas.

N. Provisions, Contingent Liabilities & Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be out flow of resources. Contingent liabilities are not recognized but are disclosed in the notes. Contingent assets are neither recognized nor disclosed in the financial statements.

22.1 As per Accounting Standard 15 "Employee benefits", the disclosures as defined in the Accounting Standard are given below:

Defined Benefit Plan

The employees' gratuity fund scheme managed by trust is a defined benefit plan. The present value of obligation is determined based on Actuarial Valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation for leave encashment is determined based on Actuarial valuation using Projected Unit Credit Method
