OUR MILESTONES

WHERE GROWTH IS A CULTURE

At Ruchira Papers, we believe that in the paper manufacturing business that is capital-intensive, success is derived from the ability to grow continuously at progressively lower capital costs per tonne.

Over the years, the Company has progressively done so with the objective to enhance output on the one hand and widen margins on the other. The complement of this has helped the Company scale revenues and profits.

This commitment to grow efficiently is derived from a distinctive Ruchira Papers culture marked by various realities.

One, the Company is managed by technocrats with hands-on engagement, making it possible to arrive at business-strengthening technology solutions with speed, economy and effectiveness.

Two, a number of the Company's business-strengthening initiatives are marked by relatively low capital expenditure, widening overall profitability.

Three, the Company is generally engaged in enhancing production, making growth continuous.

The result is in the numbers: capital cost per tonne of output declined from ₹25272 in 2012-13 to ₹24702 in 2014-15 but increased to ₹30434* in FY18.

**The Company undertook the implementation of a modernization programme during the last quarter of FY18, the benefits of which shall be felt from Q2 of FY19.*

The Company reported an Asset-Turnover ratio of around 1.4 against a prevailing standard of around 0.85 in the paper industry, generating a larger revenue and profit throughput – the essence of business sustainability.

cost-effectiveness

WHERE GROWTH IS A CULTURE

Two, the Company invested proactively in equipment and processes (chemical recovery system, effluent treatment plant and cogeneration unit).

Three, the Company's enzymatic process eliminated the use of harsh chemicals used in the conventional process, consuming less energy and less water on the one hand and promoting the use of renewable crops on the other.

The result of this forward-looking commitment has translated into a moderated consumption of water, energy and raw material resources – the ability to reduce CO2 emission and manufacture paper at around the lowest carbon footprint in India.

At Ruchira Papers, we believe that in a business where regulatory compliances are increasingly demanding and where the penalty for transgression is severe, success is derived from the ability to be a responsible corporate citizen.

Over the years, the Company has reinforced responsible growth through various initiatives.

One, the Company made a fundamental choice towards responsible growth through the consumption of renewable agro-based raw materials, reinforcing its positioning of 'We are committed to the earth'.

WHERE GROWTH IS A CULTURE

At Ruchira Papers, we believe that in a business that is largely dependent on resources derived from farmers, success is derived from the ability to engage in initiatives directed at community benefit.

During the last few years, the Company deepened its community engagement through a unique initiative.

Until some years ago, there was no economic use for the straw that remained after farmers had harvested their cereal crops in Haryana and Punjab. Farmers were inclined to incinerate the remaining

stalks to clear their fields in time for the next harvest. The result was increased pollution spreading across rural and urban India. This endangered lives across a large spread of North India.

The Company responded with an innovative program. It helped farmers transform the straw into a productive cash crop that would be used by us, benefiting thousands of farmers.

The result of this sensitive engagement has translated into a win-win proposition: enhanced incomes for thousands of farmers and a cleaner quality of air for all.

RUCHIRA PAPERS: AT THE CUSP OF SUBSTANTIAL GROWTH

At Ruchira Papers, we have focused on sustained multi-year growth as the surest way to enhance competitiveness across market cycles.

This growth has been marked by a consistent debottlenecking and modernization of our existing facilities, making it possible to tweak equipment and processes with the objective to generate more out of less.

There are two growth initiatives that one would like to communicate to shareholders at this point. The combination of these two initiatives, is expected to create a more robust foundation and graduate the Company into the next orbit.

Modernization and upgradation, FY18

During the last quarter of FY18, the Company undertook modernization and upgradation programme that would make it possible for the Company to enhance production on the one hand and facilitate the Company to produce value-added products on the other.

This modernization was also directed towards strengthening the overall business across various parameters.

Following the completion of the same, the Company will be able to produce value-added Kraft products and enhance production to service the growing needs of customers.

In the past, the Company manufactured natural shade kraft but following the modernization, the Company will be able to introduce coloured and re-sized versions of Kraft that will not only address a widening downstream consumer preference but also generate enhanced realizations.

The Company embarked on initiatives to graduate from the agro-plus-waste resource mix to agro-plus-waste-plus coated equivalent. Earlier, the Company's kraft mix was largely focused on the large 20 burst factor (BF) segment that was commodity in nature; through the recent programme, the Company has widened its kraft mix towards the 25-40 BF range, widening its downstream applicability and graduating the Company to only a handful of players in the niche 35-40 BF segment.

We are pleased to report that these initiatives have already been commissioned and their full impact will be visible from the second quarter of the current financial year of FY19.

Ruchira Papers 2.0

At Ruchira Papers, we are excited about a proposal that can potentially graduate the Company into the next orbit.

During the year under review, the Company outlined a proposal to commission a greenfield 100,000 TPA capacity for writing and printing paper. When commissioned across the foreseeable future, this proposed investment can completely transform the Company's fundamentals, virtually increasing production and revenues.

The proposed investment comes at a time when the prospects of India's paper industry appear optimistic across the foreseeable future. India is not only one of the most under-consumed paper consuming nations, it is also possibly the fastest growing major paper consumer – an indication that the country is correcting years of under-penetration faster than ever.

Even as the country's broad paper and paperboards sector will continue to grow at around 7 per cent a year from a base of around 17 million tonnes per annum, we believe that the writing and printing segment will grow at a linear 35% by 2020 for a combination of reasons: enhanced incomes, increased aspirations and deeper literacy.

At Ruchira Papers, we believe that the increased capability of writing & printing papers will also broadbase the Company's operations: 57 per cent of the Company's revenues are presently derived from writing & printing paper; following the commissioning of this greenfield unit, the proportion of revenues from this segment shall increase, strengthening economies of brand and distribution.

Besides, from a point where we are using agro-based resources and now we are expected to graduate to a mix of wood and agro-based resources, broad-basing our resource dependence.

The Company decided to commission this entirely new facility 60 kms from Chandigarh. The new location will make it possible for the Company to leverage a superior access to raw material, strengthening logistical efficiencies.

At Ruchira Papers, we believe that this forward-looking investment will graduate it into next orbit

Assurances

As we stand at this momentous cusp, we need to assure our shareholders that the more things appear to change, the more they will remain the same.

At Ruchira Papers, we will grow without compromising the integrity of the Balance Sheet or affecting our capacity to reward shareholders. We will engage in comprehensive de-risking on the one hand and explore passion-driven upsides on the other.

In doing so, we expect to strengthen revenues and margins during the current financial year, creating a foundation on which to scale our expansion that enhances long-term value in the hands of all those who own shares in our company.

Q & A

MANAGEMENT'S OVERVIEW

“WE REPORTED PROFITABLE GROWTH DESPITE A SHUTDOWN DURING THE BUOYANT LAST QUARTER FOR THE IMPLEMENTATION OF OUR MODERNIZATION AND UPGRADATION PROGRAMME”

Q: How would the management assess the performance of the Company during the year under review?

A: The management was pleased with the performance of the Company during the year under review. On the face of it, the Company reported profitable growth – revenues increased 7.31% to ₹447.60 crore in FY18 compared to ₹417.10 crore in FY17, while EBITDA increased by 15.96% to ₹74.17 crore in FY18 compared to ₹63.96 crore in FY17 and net profit in FY18 at ₹38.24 crore was 19.31% higher than ₹32.05 crore in FY17. This profitable growth was achieved despite shutdown during the buoyant last quarter to modernize and upgrade its facilities with the objective to report higher prospective throughput during the current financial year. This modernization and upgradation was necessary to sustain the growth of the Company into the current financial year and create the foundation for taking the Company from one orbit to another.

Q: What were some of the achievements that proved creditable during the year under review?

A: Despite cost pressures, the Company is pleased to report that EBITDA margin strengthened to 16.57% in FY18 compared to 15.33% in FY17, an improvement of 124 bps. We believe that this improvement, despite not having the advantage of nearly one quarter of production during the year, represents a validation of our deep competencies: our

ability to moderate costs, ability to enhance output, ability to procure resources cost-effectively, ability to moderate the long-term debt on our books, ability to enrich the product mix and the ability to generate superior realizations. This holistic management translated into a superior showing, the restrictions notwithstanding.

Q: What were some of the specific improvements that the Company reported?

A: At Ruchira Papers, our ongoing culture is one of continuous improvement. This does not necessarily mean that we invest only in large initiatives; we are engaged in dozens of concurrent mid-sized initiatives that translate into superior value.

Q: Coming back to the modernization and upgradation programme that the Company engaged during the last quarter. What will this achieve for the Company?

A: This was in line with the Company's commitment to make moderate improvements across the range of its business. In this specific instance, the modernization will help the Company produce more – an output of around 115,000 MT in FY18 rising to an estimated 133,000 MT in 2018-19 and a projected 142,000 MT in 2019-20, translating into two straight growth years for the Company. Further, this will help in producing value-added Kraft products enjoying higher realizations.

One must also add that the modernization was carried out at a cost of ₹33.50 crore, of which a sizable ₹15.73 crore was generated from accruals and the remainder from moderately-priced debt from banks. The big message that we wish to send out is that this modernization and corresponding production growth is being facilitated by a low cost of funds that should only strengthen our competitiveness.

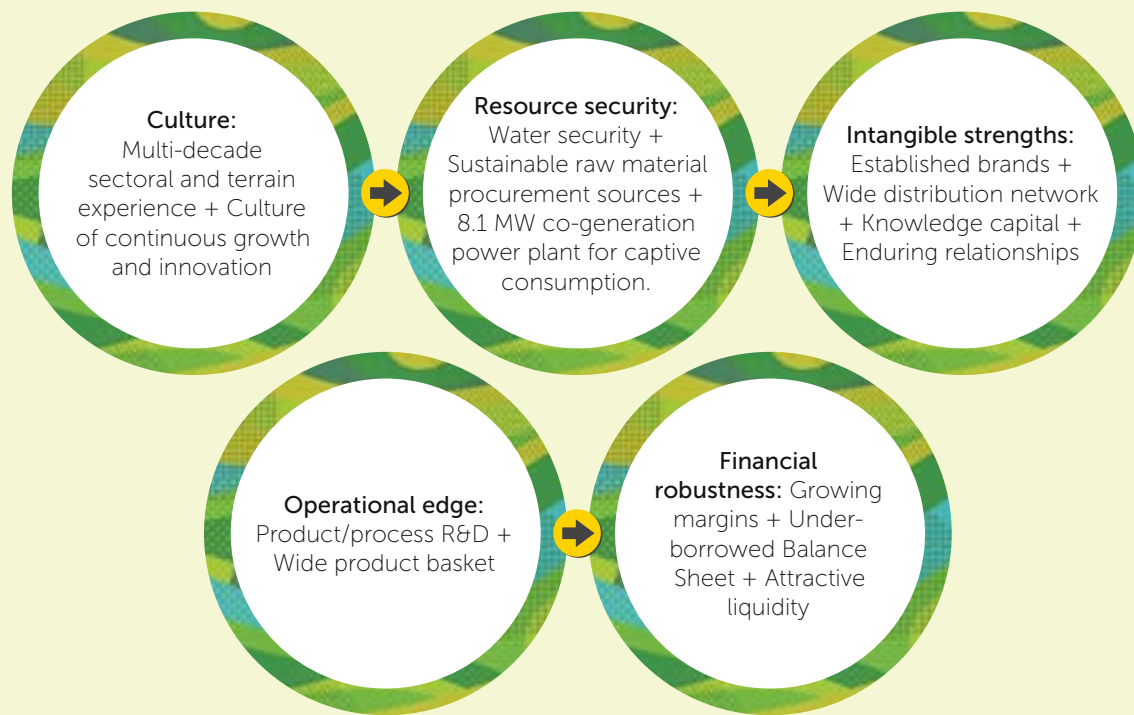

Q: What does the Company expect to achieve during the current financial year?

A: The Company expects to report a volume-value play during the current financial year: we expect to report increased production following our modernization; we expect to manufacture as value-added Kraft products that fetch better realizations. We expect to generate benefits of our FY18 investments through the full extent of the year. We believe that the complement of these realities should empower the Company to report better revenues and profits during the current financial year.

BUSINESS MODEL

AT RUCHIRA PAPERS, WE ENDEAVOR TO ENHANCE STAKEHOLDER VALUE THROUGH A ROBUST BUSINESS MODEL

Business model framework

Sectoral optimism

Income growth: India's paper appetite has been driven by GDP growth of >6%, making it one of the fastest-growing paper consuming countries. Even as annual global paper consumption growth is around <2%, India's paper appetite has grown at ~6% per annum across the last few years. Per capita net national income strengthened from ₹1,03,219 in FY17 to an estimated ₹1,11,782 in FY18, strengthening offtake for paper and kraft products.

Sectoral potential: India's share in global paper demand is growing. Domestic demand grew from 9.3 million tonnes in FY08 to 15.3 million tonnes in FY16 at a CAGR of 6.4%. Per capita paper consumption was a little over 13 kg, well below the global average of 57 kg and significantly below 200 kg in North America.

e-commerce boom: With the e-commerce sector estimated to grow from US\$ 38.5 billion in 2017 to US\$ 228 billion by 2030, the

country's paperboard segment is expected to correspondingly grow as well.

Urbanization: India's urbanization growth between 2010 and 2015 stood at 1.1%, the highest among major economies. India is expected to add >400 million people to its urban population between 2014 and 2050, a strong case for increased paper consumption (the urban Indian consumes more paper than the rural Indian).

GST implementation: The difference in competitiveness between unorganized and organized players has narrowed following GST implementation, strengthening prospects for compliant players.

How Ruchira Papers is capitalizing on this opportunity

Diversifying offerings: The Company reinforced its sectoral presence through a presence across growing segments (writing and printing / kraft paper). This is expected to serve as adequate de-risking in the event of a decline in offtake or realizations in any specific segment.

Locational advantage: The Company is located in Himachal Pradesh, connected to state and national highways as well as principal product consuming markets. Himachal Pradesh is a peaceful state with a healthy business environment that facilitates uninterrupted business operations.

Safeguarding resource security: The Company is located at the outskirts of Haryana and Punjab, agriculturally rich States, strengthening raw material procurement. We source wheat straw material directly from farmers/through local aggregators. Bagasse is procured from local sugar mills (largest sugar mill in North India is located 50 km of our plant), while sarkanda is procured from local contractors.

Accrual-driven growth: The Company aggressively utilized accruals to moderate the use of

debt in a capital-intensive sector. The Company's long-term debt was ₹39.60 crore as at 31 March 2018. Gearing was an attractive 0.21 during the year under review; working capital limits sanctioned by banks remained under-drawn.

Niche products: The Company is enhancing the proportion of revenues from products addressing niche segments fetching higher realizations

Distribution: The Company enjoys enduring engagements with 45- 50 dealers and more than 25 customers, facilitating wide product distribution and a larger share of the customer's wallet.

Environmental integrity: The Company's eco-friendliness has been reinforced through various forward-looking investments across manufacturing facilities and proximate facilities, making it a completely compliant and responsible manufacturer.

THIS IS HOW WE STRENGTHENED OUR BUSINESS IN THE LAST FEW YEARS

VALUE-ADDITION

Attractive production per capital

Production (in MT) per crore of capital employed (₹)

Ruchira Papers is focused on enhancing return on investment through enhanced output from every crore of financial investment.

*Decreased due to the implementation of a modernization and upgradation programme during the last quarter of FY18, the full benefits of which will be available from 2018-19 onwards.

Business investment commitment

Gross block* (₹ crore)

The Company invested in enhancing output across market cycles, making it opportunity-ready. These progressive investments graduated the Company into one of the largest agro-based paper manufacturers in North India.

*Gross Block includes land of ₹24.60 crore purchased for the proposed greenfield project.

Growing output

Production (tonnes)

At Ruchira Papers, upgradation and debottlenecking are ongoing, making it possible to enhance output and amortize fixed costs efficiently to address growing customer needs with timely product availability. During FY18, the Company's plant was shut for turbine overhauling and implementation of the upgradation and modernization programme, resulting in lower production compared to FY17.

Product mix

% of revenues from writing & printing paper

The Company has evolved its product mix towards writing and printing paper varieties, addressing the enhanced literacy opportunity in the country as well as a downstream need for related products – a growing brand in a widening product segment.

Niche value-added

% of writing & printing paper revenues from coloured paper

Ruchira Papers has evolved from the manufacture of commodity varieties to value-added varieties of writing and printing papers. Colored paper was introduced in 2011 and revenues from this segment have grown steadily, helping the Company generate a premium over the prevailing writing & printing paper average.

Water-efficiency

- Water consumption (metre cube) per tonne of kraft paper
- Water consumption (metre cube) per tonne of writing/printing paper

The Company has progressively invested in superior technologies, which have moderated water consumption. Ruchira Papers' proactive investment in effluents treatment (French technology), chemical recovery system and an online water monitoring system have helped reduce water consumption.

Productivity

Per person productivity (in ₹) (calculated on Net Sales)

Through investments in up-skilling, multi-skilling and knowledge enhancement, the Company increased per person productivity.

Capital cost per tonne

Capital cost per tonne (₹)

Derived from dividing gross block by total production. This indicates the competitiveness of Ruchira compared with peer companies. The preference for accrual-based investing has translated into a relatively small Balance Sheet in a capital-intensive sector.

*The Company undertook the implementation of a modernization and upgradation programme during the last quarter of FY18, the benefits of which shall be felt from Q2 of FY19.

THIS IS HOW WE HAVE GROWN OVER THE YEARS

VALUE-ADDITION

Revenues, FY18

Turnover (₹ crore)

Definition: An increase in revenues from operations after deducting tax and excise duties.

Why we measure: To measure the Company's ability to comprehend demand trends and respond with prudent changes cross the entire value chain.

Performance: The Company's total sales reported an increase of 7.31% from ₹417.10 crore in FY17 to ₹447.60 crore in FY18.

Working capital efficiency

- Working capital as % of capital employed
- Revenue derived from a rupee of working capital

Definition: Working capital expressed as a percentage of capital employed.

Why we measure: A low percentage is an indicator of efficiency of doing business and the Company's ability to reinvest surpluses in business growth.

Performance: The Company monetized product superiority through attractive terms of trade, which moderated finished inventory and accelerated receivables.

Raw material flexibility

Raw material cost as % of revenues

Definition: Raw material cost as a percentage of revenues.

Why we measure: This indicates the efficiency with which the Company's resource costs are covered.

Performance: The Company works with a mix of agro-based material (wheat straw, bagasse and sarkanda), diversifying its dependence from any one material. Bagasse is dependent on cane planting; wheat straw is available across the year, strengthening quality consistency and cost management.

Receivables management

Receivables in terms of days of turnover equivalent

Definition: The division of the turnover by the total receivables at the end of the financial year multiplied by the total number of days in a year.

Why we measure: To assess the number of days of receivables outstanding, the lower the better.

Performance: The Company's receivables in terms of days increased marginally to 38.80 days in FY18 from 37.40 days in FY17.

Gearing

Debt-equity ratio

Definition: Debt divided by equity (net worth).

Why we measure: To assess the extent to which the Company is borrowed.

Performance: The Company's gearing (based on long-term debt) strengthened from 0.28 in FY15 to 0.21 in FY18.

Interest cover

Interest cover (x)

Definition: The division of EBITDA by interest outflow.

Why we measure: To assess the Company's financial strength and ability to pay interest/debt with ease.

Performance: The Company's interest cover was a comfortable 11.37x in FY18, as compared to previous year's 8.74x, a reflection of attractive gearing and opportunity for fresh borrowings without compromising stability.

MANAGEMENT DISCUSSION AND ANALYSIS

IMPROVED VIABILITY

Return on capital employed (RoCE), FY18
(%)

Definition: This ratio measures a company's profitability and the efficiency with which capital is employed in the business. It is derived from the EBIT divided by total average capital employed by the Company and the amount deployed in the business.

Why we measure: To assess investment effectiveness, captured as a result of all our diverse initiatives, validating the strength of the business model.

Performance: The Company reported an RoCE of 25.06% in FY18, which was a 545 bps increase over 19.61% in FY15. Resulting in the generation of higher value for shareholders.

Return on net worth
(%)

Definition: The financial ratio derived from the Net Profit divided by total shareholder's equity.

Why we measure: This is also called Return on Equity (ROE). This is a measure that calculates the profit a company generates with each rupee of shareholders' funds.

Performance: Our RoNW strengthened from 12.19% in FY15 to 19.98% in FY18.

EBITDA
(₹ crore)

Definition: The earnings measured before the deduction of interest, depreciation, extraordinary items and tax.

Why we measure: This measures the Company's operating profitability, despite inflationary pressures and is easily comparable with the respective average and sectoral peers.

Performance: The Company's EBITDA reported a 15.96% increase Y-o-Y in FY18, from ₹63.96 crore in FY17.

EBITDA margin
(%)

Definition: The measure of percentage points in operating profit before interest, depreciation, exceptional items and tax when divided by the Company's turnover.

Why we measure: To assess business efficiency and comprehend the earnings of a company (before accounting for business and taxes) on each rupee of sales.

Performance: The Company's EBITDA profit margin increased from 15.33% in FY17 to 16.57% in FY18, reporting an increase of 124 bps, derived from improved operating efficiencies.

Global economic overview

In 2017, a decade after the global economy collapsed, a revival manifested wherein major economy expanded: ongoing Euro-zone

growth, modest growth in Japan, late revival in China and improving realities in Russia and Brazil. The result was an estimated 3.7% global economic growth in 2017, some 60 bps higher than the previous year.

It would be relevant to indicate that crude oil prices increased in 2017 from \$54.13 per barrel at year-start to a low of \$46.78 per barrel in June 2017 and year-close at \$61.02 per barrel, the highest since 2013.

places in the World Bank's Ease of Doing Business 2017 report, a result of the Central Government's pro-reform agenda.

Goods and Services Tax: The Government of India launched GST in July 2017, with the vision of creating a unified market. Under this regime, various goods and services would be taxed as per five slabs (28%, 18%, 12%, 5% and zero tax).

Foreign Direct Investment: Foreign direct investment increased from approximately USD 24 billion in FY2012 to approximately USD 60 billion in FY2017, an all-time high.

Coal mining opened for private sector: The government opened coal mining to private sector firms for commercial use, the most ambitious sectoral reform since nationalization in 1973.

Doubling farm incomes: The government initiated a seven-point action plan to double farm incomes by 2022.

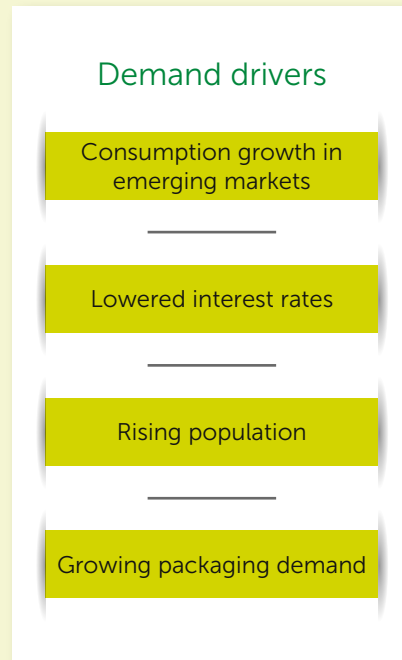

Outlook
World Bank projected India's economic growth to accelerate to 7.3% in 2018-19 and 7.5% in 2019-20. Strong private consumption and services are expected to continue to support economic activity. Private

investment is expected to revive as soon as the corporate sector adjusts to the GST.

Global paper industry

The global paper and paperboards market valued at US\$482.4 billion in 2017 is expected to reach US\$523.6 billion by 2022, growing at a CAGR of 1.7%. The global paper market is fragmented with the Asia-Pacific region accounting for close to half the overall revenues in 2017 (US\$231.5 billion) and expected to grow to US\$250.2 billion by 2022. Although China is the largest market by value in the paper and paperboard segment, Brazil and India are forecast to register faster growth (CAGR of 7.1% and 6.9%, respectively).

The global paper and paperboards market reported attractive growth on the back of improved literacy, economic development in key geographies, changing consumer lifestyles, growing urbanization and a rise in disposable incomes. Although paper manufacture accounted for a larger market share in 2017 (~57%), the paperboard sector is forecast to grow faster (CAGR of 2.6%) over the near-term.

Outlook

Growth in literacy levels, disposable incomes and organized retail are expected to drive the paper industry's growth. However, the market is facing challenges from digitization and cost-effective alternatives.

Domestic Paper Demand (in million tonnes)

Indian paper industry

Accounting for ~3% of the global paper production, the Indian paper industry's turnover stood at ~₹50,000 crore (US\$8 billion). The industry contributed ~₹4,500 crore to the Indian exchequer, providing employment to >0.5 million people and 1.5 million people, directly and indirectly, respectively. ~ 65% of the paper manufactured in India depended on recycled fibre, 24% on wood and 11% on agro residues.

India is still an underpenetrated country because despite sustained growth over the years, the per capita consumption of paper in India is a little over 13 kg, way behind the global average of 57 kg. The domestic demand in India grew from 9.3 million tonnes in FY08 to 17 million tonnes in FY17 at a CAGR of 6.9%.

Packaging paper & board segment accounting for nearly 52% of the

total paper demand in India and is the largest segment in the industry. It grew at a CAGR of 8.3% from 4.3 million tonnes during FY08 to 8.8 million tonnes in FY17. Rising urbanization, increasing penetration of organized retail, higher growth in FMCG, pharmaceutical and processed food industries etc. are the growth drivers of the segment.

Industry classification

The industry is classified into four segments:

- Writing and printing paper
- Packaging Paper & Boards
- Newsprint
- Specialty papers

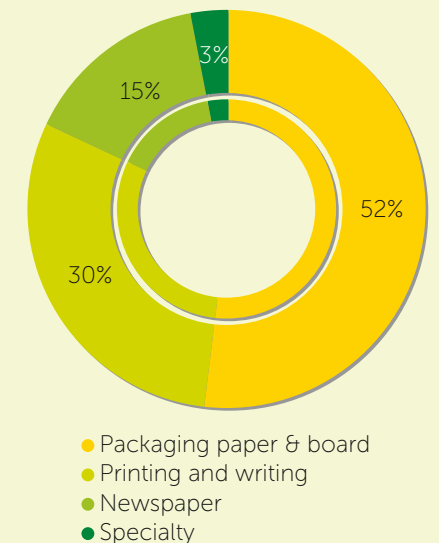

Packaging paper & board accounts for the largest segment in the industry. It grew at a CAGR of 8.3% from 4.3 million tonnes during FY08 to 8.8 million tonnes in FY17. Rising urbanization, increasing penetration of organized retail, higher growth in FMCG, pharmaceutical and processed food industries etc. are the growth drivers of the segment.

Domestic demand for P&W paper is 5 million tonnes per annum. This segment is categorized into four parts, namely Uncoated Wood-Free (UWF), Coated Wood-Free (CWF), Uncoated Mechanical (UM) and Coated Mechanical (CM). Rising literacy rate and universalization of education through legislative steps like Right to Education, governmental measures and increased spending on education are the main reasons for growth in the demand for Printing and Writing Paper.

The newsprint segment grew at a CAGR of 3.5% during FY08-17 to 2.6 million tonnes, on the back of improving literacy and increasing circulation of vernacular dailies. The prospect of newsprint segment primarily depends on its consumption by print media industry.

Specialty papers & others is the smallest segment. It is used for packaging of gift items, grocery bags, etc. and tissue papers. This segment especially tissue papers is the fastest growing segment, albeit the on a much smaller base. Its demand is derived out of a general improvement in the standard of living which allows for the substitution of paper for general packing purpose.

STRENGTHS AND WEAKNESSES

Strengths

- Growing need for cardboard packaging in the e-commerce sector
- Increasing purchasing power of the middle-income class in emerging markets
- Rising demand for hygiene products
- Ban of plastic variants

Weaknesses

- High sensitivity to feedstock costs (pulp)
- High investments required to ensure steady growth

Import-export trends

Imports of paper and paper products rose by 11.2% from ₹11,593 crore in the April-Jan 2017 period to ₹12,893 crore for the April-Jan 2018 period. The increase in imports was primarily led by the duty-free import from ASEAN nations and Korea. Paper and paper products exports also grew by 34.5% to ₹3,481 crore for the Apr-Jan 2018 period from ₹2,589 crore for the comparable period in the previous year. (Source: CARE Ratings)

Paper prices

Prices did not undertake a price hike in the beginning of 2017 due to factors such as

In the beginning of 2017, paper companies did not undertake price hikes because of factors competition from imports, stabilization in wood prices and lower power & fuel cost. Domestic prices rose marginally in FY18 primarily due to factors such as tight markets, low Chinese pulp inventories, shortage of supply coming to the market, and healthy demand.

Since mid-2017, China banned the use of mixed grade waste paper and demand for wood pulp (natural fibre) increased. Major pulp exporters such as Indonesia, Malaysia and Chile

diverted pulp to China at a higher price, leading to a rise in price of end product.

(Source: CARE Ratings)

Growth outlook

In India, a strong economic growth has been accompanied by an equivalent growth in the paper industry. This growth was achieved on the back of multiple factors such as rising income levels, growing per capita expenditure, rapid urbanization and a larger proportion of earning population and there is still an enormous growth potential for this industry in India.

CARE Ratings expects that the overall paper demand growing at a CAGR of 6.7% to touch 20.7

million tonnes in FY20. Tight markets, low pulp inventories of paper manufacturers in China and health domestic demand would be major contributors to this growth. The waste paper prices, however, may fluctuate on account of volatility in international waste paper prices, healthy demand, and forex fluctuations.

The Chinese Government has banned the import of several varieties of waste paper (the primary raw material for finished paper). Hence, the production of finished paper is expected to be hampered in China which is expected to lead to some relief in raw material prices and improve realizations.

GST impact

The Government of India carried out an overhaul of the indirect tax regime by launching the much-awaited GST in July 2017 to create a unified indirect tax market. Under this regime, various goods

and services are taxed as per five slabs (28%, 18%, 12%, 5% and zero tax). To reduce the short-term inflation effect of GST, the GST Council cut tax rates on more than 250 goods and services by moving them to lower tax slabs in two separate rate cuts. Following

GST implementation, India's tax net expanded: a 50% increase was recorded in unique indirect taxpayers. GST implementation has enhanced sectoral competitiveness, empowering it to address imports. (Source: Paper Mart, IMPA)

Indian paper industry celebrated Paper Day on 1st August 2018 through the launch of an awareness campaign titled 'Paper is Green' based on the environment friendliness of paper. According to the Indian Paper Manufacturers Association (IPMA), paper is the only material which is biodegradable, renewable, recyclable and sustainable and the celebration of Paper Day offered an opportunity to spread the increased usage of paper in recent times. During the campaign, booklets were distributed educating people on the various myths and realities of paper. According to IPMA, growing and harvesting trees by Paper Industry is providing jobs for lakhs of farmers in rural areas. Currently, agro forestry initiative of Paper Industry spreads across approx. 9,00,000 hectares and around 90% of the demand for wood by the industry is sourced from industry driven agro forestry. SWOT analysis

Strengths

- Availability of a wide variety of products
- Stable demand
- Key employment provider
- Expertise in non-wood pulping and applications
- Large and growing market

Weaknesses

- Capital-intensive industry
- Unorganized structure
- Uncompetitive mills
- Copious water requirement
- Low skill levels

Opportunities

- Immense growth potential
- Increasing focus on education to increase demand
- Availability of low-cost labour
- Growing export demand

Threats

- High raw material and energy costs
- Increased competition
- Rising digitization
- Growing deficit of wood fibre

Demand drivers of India's paper sector

Rising incomes: Indian economy has witnessed rapid growth in the last decade. Correspondingly, India's per capita GDP has increased from ₹71,607 in FY12 to ₹117,406 in FY17 at a CAGR of 10.4%, paving the way for a consumption boom in the country. Henceforth, the per capita personal disposable income surged from ₹73,476 in FY12 to ₹119,296 in FY17 at a CAGR of 10.2%. The per capita private final consumption expenditure too rose from ₹40,250 in FY12 to ₹68,049 in FY17 at a CAGR of 11.1%, driving consumption levels in the country.

[Source: CARE]

Downstream demand: Continuous demand from FMCG, electronics, services sector, pharmaceuticals and ready-to-eat foods are driving use of paper, paperboards and packaging

materials. Despite initiatives being taken towards going paperless driven by technology, paper serves as the most reliable option for banks, insurance companies and hospitals.

[Source: IBEF]

Improving literacy: India intends to improve literacy rate from 70% levels to 90%, and thus this 20% growth is expected to accelerate demand for writing and printing paper.

[Source: Economic Times]

Chinese ban: The ban imposed by the Chinese Government on import of several varieties of waste paper, the primary raw material for finished paper, is expected to hamper the production of finished paper in China. This, in turn, would lead to some relaxation in raw material prices and improve realizations.

RISK MANAGEMENT

AT RUCHIRA PAPERS, RISK MANAGEMENT ENTAILS IDENTIFYING, ASSESSING AND MANAGING EXISTING AND POTENTIAL RISKS. THE MANAGEMENT BALANCES BUSINESS RISKS AND OPPORTUNITIES TO ANALYZE POTENTIALLY NEGATIVE OR POSITIVE OUTCOMES.

Business risk

Competition as well as supply-demand imbalances could affect the Company's bottomline.

Mitigation

Paper manufacturing is a capital-intensive business marked by high entry barriers. The Company's strong marketing and distribution network generated consistent product demand even during challenging phases. Exports helped maintain margins.

Input risk

Unavailability of raw material fibre can compel the Company to incur higher raw material costs.

Mitigation

The Company sources raw materials locally or from the neighbouring state of Punjab and Haryana, which has abundant resources. Hence it does face much of a risk when it comes to accessing raw materials.

Manpower risk

A dearth of talented personnel can affect growth.

Mitigation

The Company evaluates personnel competence through periodic surveys and other assessments. Structured programmes were conducted to train employees. An annual succession planning process helps minimize attrition.

Environmental risk

The paper industry can potentially affect the environment by destroying forest cover.

Mitigation

The Company's primary raw materials include agriculture residue (bagasse), wheat straw and other long-fibres like softwood, indigenous waste paper, among others, which do not involve the cutting of trees.

Market risk

The customer's demand for paper products, which determines prices, is influenced by offtake, economic sentiment and inventories.

Mitigation

The Company monitors demand, prices, preferences, supply-demand dynamics and raw material prices to create a protective moat.

Human resource

Ruchira Papers believes that its competitive advantage lies within its people. The Company's people bring to the stage a multi-sectoral experience, technological experience and domain knowledge. The Company's HR culture is rooted in its ability to subvert age-old norms in a bid to enhance competitiveness. The Company always takes decisions in alignment with the professional and personal goals of employees, achieving an ideal work-life balance and enhancing pride of association.

Internal control systems and their adequacy

The Company's internal audit function has been continuously monitored and updated to ensure that assets are safeguarded, established regulations are complied with and pending issues are addressed promptly. The audit committee reviews reports presented by the internal auditors on a routine basis. The committee makes note of the audit observations and takes corrective actions, if necessary. It maintains constant dialogue with statutory and internal auditors to ensure that internal control systems are operating effectively.

ENVIRONMENT MANAGEMENT

Environmental issues are major areas of concern for the survival of any pulp and paper business. Plant installations and greenfield expansions need to be based on strong environment friendly technologies, especially in today's market where awareness

of environment conservation is increasing.

At Ruchira Papers, environmental initiatives are not just taken for conforming with compliance norms but to enhance self-worth and credibility. The Company

is committed towards society and seeks to do its bit towards conservation. Since its inception in 1980, Ruchira Papers has followed all the guidelines and regulations related to environment conservation.

Our effluent treatment plant

The Company possesses a state-of-the-art ETP based upon activated sludge process, adopted internationally, consisting of an equalization tank, primary clarifier, aeration and secondary clarifier.

Manufacturing paper with the lowest carbon footprint

- The Company established a conventional chemical recovery plant in 2008 to recycle black liquor
- Recycling black liquor helped recover caustic soda for captive use in the cooking process.
- Back water from the paper mills is recycled and reused.
- Agricultural wastes such as upla, pith, leaf cutting and rice husk are used as fuel in the mill boilers, generating steam (conserving natural resources).

Measures to reduce water consumption and effluent load

- The Company changed the format in which filtrates are sent for bleaching
- The continuous digester system was installed to cook raw materials with minimal energy wastage.
 - The polluted condensate from the recovery plant was used to wash unbleached pulp to reduce water consumption and effluents.
 - Any spillage of black liquor was collected and recirculated in the system.

TRANSFORMATION STORY

Moderating water use

The Company focused on water consumption

A back water saving mechanism in mills helped conserve water used in the pulp mill and stock preparation

The underflow sludge (containing fiber from the mills) was re-used

Old showers in the paper manufacturing units were replaced with new H.P. Showers and low pressure showers to reduce water consumption

Condensate from the paper machine was re-circulated in the boiler house for steam generation

Result: These measures helped Ruchira reduce water consumption by 40% - between 2012-13 and FY18

Report on Corporate Governance

COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE

Corporate Governance is essentially a system by which Companies are governed and controlled by the management under the direction and supervision of the Board in the best interest of all stakeholders. It is not mere compliance of laws, rules and regulations, but also the application of best management practices and adherence to the highest ethical principles in all its dealings, to achieve the objects of the Company, enhance stakeholder value and discharge its social responsibility. Above all, it is a way of life, rather than merely a legal compulsion.

Your Company's philosophy on the Code of Governance is based on the belief that effective Corporate Governance practices constitute a strong foundation on which successful commercial enterprises are built to last. Good Corporate Governance is indispensable to resilient and vibrant capital markets and is, therefore, an important instrument of investor protection. Your Company lays great emphasis on a corporate culture of conscience, integrity, fairness, transparency, accountability and responsibility for efficient and ethical conduct of its business.

The Company has adopted a Code of Conduct for its employees including the Managing Director and Whole Time Directors. The Board of Directors is at the core of our Corporate Governance practice and oversees how the management serves and protects long-term interest of all our stakeholders. We believe that an active, well-informed and independent Board is necessary to ensure the highest standards of corporate governance. It is well recognized that an effective Board is a pre-requisite for strong and effective corporate governance. Our Board exercises its fiduciary responsibilities in widest sense of the term.

Your Company is in compliance with the requirements of Corporate Governance stipulated in the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations').

1. BOARD OF DIRECTORS

In terms of Company's Corporate Policy, all statutory and other significant and material information are placed before the Board to enable it to discharge its responsibilities of supervision, control and direction.

a. Size & Composition of Board of Directors:

The Board has an optimum combination of Executive and Non-Executive Directors. More than 50% of the Directors are Non-Executive Independent Directors. The Company has Three Whole Time Executive Directors and one Managing Director to look after finance, projects, commercial, technical and personnel affairs of the Company. The total number of Directors of the Company is 9(Nine) as on 31st March, 2018 consisting of 4 Executive Directors and 5 Independent Directors. None of the Independent Directors is responsible for the day to day affairs of the Company. The Board periodically evaluates need for change in its composition and size.

None of the Directors on the Board is Member of more than ten committees or Chairman of more than five Committees across all the public companies in which he is a Director. Necessary disclosures regarding Committee positions in other public companies as on 31st March 2018 have been made by the Directors.

The Composition of the Board is in conformity with Regulation 17 of the Listing Regulations as well as the Companies Act, 2013.

Every Independent Director, at the first meeting of Board in which he participates as a Director and thereafter at the first meeting of the Board in every financial year, gives a declaration that he meets the criteria of independence as provided under law.

Evaluation of Board Effectiveness:

In terms of applicable provisions of the Companies Act, 2013 read with Rules framed there under and provisions of Listing Regulations and on the recommendation of Nomination and Remuneration Committee, the Board of Directors has put in place a process to formally evaluate the effectiveness of the Board, its Committees along with performance evaluation of each Director carried out on an annual basis. Accordingly, the annual performance of the Board, its committees and each Director was carried out for the Financial Year 2017-18.

Criteria for evaluation of individual Directors include aspects such as professional qualifications, prior experience, especially experience relevant to the Company, knowledge and competency, fulfilment of functions, ability to function as a team, initiative, availability and attendance, commitment, contribution, integrity, independence and guidance/ support to management outside Board/ Committee Meetings. In addition, the Chairman is also evaluated on key aspects of his role, including effectiveness of leadership and ability to steer meetings, impartiality, ability to keep shareholders' interests in mind and effectiveness as Chairman.

Criteria for evaluation of the Committees of the Board include mandate and composition; effectiveness of the Committee; structure of the Committee; regularity and frequency of meetings, agenda, discussion and dissent, recording of minutes and dissemination of information; independence of the Committee from the Board; contribution to decisions of the Board; effectiveness of meetings and quality of relationship of the Committee with the Board and management.

Familiarization programmes for Board Members:

The Board members are provided with necessary documents/brochures, reports and internal policies to enable them to familiarize with the Company's procedures and practices. The details of such familiarisation programmes for Independent Directors are posted on the website of the Company and can be accessed at <http://www.ruchirapapers.com/investors.html>.

Meetings of Independent Directors:

One meeting of Independent Directors was held during the year on 13th March 2018. All the Independent Directors were present at the meeting.

b. Board Meetings:

The Board meets at regular intervals to discuss and decide on business strategies/policies and review financial performance of the Company.

The notice of each Board Meeting is given in writing to every Director. The Agenda along with relevant notes and other material information are sent in advance separately to each Director. This ensures timely and informed decisions by the Board. The Minutes of Board Meetings are also circulated in advance to all Directors and confirmed at subsequent Meeting. The Board reviews the performance of the Company vis-à-vis budgets/targets.

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

To
The Members of
Ruchira Papers Limited

Report on the Audit of the Ind AS Financial Statements:

We have audited the accompanying Ind AS financial statements of Ruchira Papers Limited ("The Company"), which comprise the Balance Sheet as at March 31, 2018, the Statement of Profit and Loss, the Statement of Changes in Equities and the Statement of Cash Flows for the year then ended, and a summary of the significant accounting policies and other explanatory information (herein after referred to as "the Ind AS financial statement").

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the state of affairs, profit/loss (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has a realistic alternative but to do so.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An Audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Board of Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We are also responsible to conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify the opinion. Our conclusions are based on the audit evidence obtained up to the date of Auditor's Report. However,

future events or conditions may cause an entity to cease to continue as a going concern.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2018, and, its profit (including other comprehensive income), its changes in equity and its cash flows for the Year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016, (the order) issued by the Central Government in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of accounts as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss, the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of accounts.

- (d) In our opinion, the aforesaid Ind AS financial statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act.
- (e) On the basis of the written representations received from the directors as on March 31, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- (g) With respect of the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our knowledge and belief and according to the information and explanations given to us:
 - (i) The Company does not have pending any litigation, which have impact on its financial position in its Ind AS financial statements.
 - (ii) The Company has long term contracts for which there were no material foreseeable losses. The Company does not have long term derivative contracts.
 - (iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the Year.

We have audited the internal financial controls over financial reporting of Ruchira Paper Limited ("the Company") as at March 31, 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI deemed to be prescribed under section 143 (10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and, both issued by the ICAI. Those standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial control over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (iii) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, Projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the company has, in all material respects, an adequate internal financial controls system financial reporting and such internal financial controls over

financial reporting were operating effectively as at March 31, 2018, based on the internal controls over financial reporting criteria established by the Company considering the essential components over internal control stated in the Guidance Note on audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes on Financial Statement for the period ended 31st March 2018

1. Corporate Information:

Ruchira Papers Limited (the Company) is a manufacturing company. The Company manufactures Kraft Paper and Writing and Printing Paper.

The Company is a public limited company incorporated and domiciled in India. The address of its Registered Office is Tirlokpur Road, Kala Amb, Distt-Sirmaur, Himachal Pradesh-173030

The Financial Statements for the year ended March 31, 2018 were approved by the Board of Directors and authorized for issue on May 18, 2018.

2. Basis for preparation, measurement and significant accounting policies

2.1 Basis for preparation and measurement

These financial statements have been prepared in accordance with the Indian Accounting Standards (referred to as "Ind AS" as prescribed under section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time under the historical cost convention on the accrual basis.

Effective April 01, 2017 the Company has adopted all the Ind AS standards and the adoption was carried out in accordance with Ind AS 101, First time adoption of Indian Accounting Standards, with April 01, 2016 as the transition date. The transition was carried out from Indian Accounting Principles Generally accepted in India as prescribed under section 133 of the Act, read with rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which were previous GAAP.

Accounting Policies have been consistently applied except where a newly issued Accounting Standard is initially adopted or a revision to existing accounting standard requires a change in the accounting policy either to in use. The financial statements are presented in Indian Rupees rounded off to the nearest rupees.

2.2 Use of estimates and judgments

The preparation of these financial statements in conformity with recognition and measurement principles of Ind AS requires the management of the Company to make judgments, estimates and assumptions. These estimates, judgments and assumptions after application of accounting policy and the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in note 2.2.1. Accounting estimates could change from period to period. Accrual results could differ from those estimates. Appropriate changes and estimates are made as the Management becomes aware of the changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their affects are disclosed in the notes to the financial statements.

2.2.1. Critical accounting estimates

i. Revenue recognition

Revenue is recognized to the extent that is probable that the economic benefit will flow to the Company and the revenue can be reliably measured. Sales are recognized when goods are supplied and the significant risks and rewards or ownership of the goods have passed to the buyer. Dividend income is accounted in the year in which it is received. Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable.

ii. Income Taxes

Significant judgments are involved in determining the provisions for income taxes including amount expected to be paid/incurred on uncertain tax positions. Also refer Note No. 2.3(j)

Notes on Financial Statement for the period ended 31st March 2018

iii. Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The change in respect of periodic depreciation is derived after determining an estimate of an assets expected useful life and the expected residual value at the end of its life. The useful lives and residual values of the Company's assets determine by the management at the time asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as change in technology.

2.3. Significant Accounting Policies

a) Property, plant and equipment:

Property, plant and equipment is stated at acquisition cost net of accumulated depreciation and accumulated impairment losses, if any. The Cost of these assets comprise its purchase price, borrowing cost and any cost directly attributable to bringing the asset to its working condition for its intended use. Subsequent expenditure relating to an item of assets are added to its book value only if they increase the future benefits from the existing assets beyond its previously assessed standard of performance. All other repairs and maintenance cost are charged to the statement of profit and loss during the period in which they are incurred.

Gains/Losses arising on disposal of property, plant and equipment are recognized in the statement of profit and loss as exceptional items.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as Capital Work in Progress.

Depreciation on fixed assets other than vehicles and furniture is provided on straight line method based on estimated useful life prescribed under Schedule II of the Companies Act, 2013. Depreciation on vehicles and furniture has been provided on written down value method under Schedule II of the Companies Act, 2013.

The depreciation on plant and machinery and effluent treatment plant has been provided on the rates applicable to continuous process plant.

Freehold land is not depreciated.

The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate.

b) Inventories:

Inventories are valued at the lower of cost and net realizable value after providing for obsolescence, if any except in case of by-product which are valued at net realizable value. The cost is computed on First in First out (FIFO) basis. Cost for the purpose of valuation of finished goods and goods in process is computed on the basis of cost of material, labour and other related overheads.

c) Cash and Cash Equivalents:

Cash and Cash Equivalents are short term (3 months or less from the date of acquisition), highly liquid investments that are daily convertible into cash and which are subject to and insignificant risk of changes in value.

d) Trade Receivables:

Trade receivables are recognized at fair value.

e) Impairment of Non Financial Tangible Assets:

Property, plant and equipment with finite life are evaluated for recoverability whenever there is an indication that carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of fair value less cost to sell and the value in use) is determined on an individual asset basis unless the asset does not generate cash flow that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the assets belongs.

Notes on Financial Statement for the period ended 31st March 2018

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognized in the statement of profit and loss.

f) Provisions, Contingent Liabilities & Contingent Assets:

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be out flow of resources. Contingent liabilities are not recognized but are disclosed in the notes. Contingent assets are neither recognized nor disclosed in the financial statements.

g) Locational Incentives:

The Company is entitled to 'Scheme of Budgetary Support' under Goods and Service Tax Regime in respect of eligible manufacturing unit (Writing & Printing Paper Unit) located in specified regions. Such grants are measured at amount receivable from the govt and are recognized as other operating revenue when there is a reasonable assurance that the company will comply with all the necessary conditions attached to that.

Income from such grants is recognized on a systematic basis over the period to which they relate.

h) Expenditure:

Expenses are accounted on accrual basis.

i) Employee Benefits:

Defined benefit plans

For defined benefit plans, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuation being carried out at each Balance Sheet date. Actuarial Gains and losses on funded obligations are recognized in full in other comprehensive income for the period in which they occur. Past service cost both vested and unvested is recognized as an expense at the earlier of (a) when the plan amendment or curtailment occurs; and (b) when the entity recognizes related structuring costs or termination benefits.

Defined Contribution Plans

Contributions to defined contribution plans are recognized as expense when employee have rendered services entitling them to such benefits.

J) Income Taxes:

Income Tax expense for the year comprises both current and deferred taxes. Current tax is measured at the amount expected to be paid to the tax authorities, using the applicable tax rates. It is recognized in the statement of profit and loss. Deferred Income Taxes reflect the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of early years. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance date. Deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. Deferred tax assets are recognized on carry forward of unabsorbed depreciation and tax losses only if there is virtual certainty that such deferred tax assets can be realized against future taxable profits. Unrecognized deferred tax assets of earlier years are reassessed and recognized to the extent that it has become reasonably certain that future taxable income will be available against which such deferred tax assets can be realized.

Deferred tax assets and liabilities are measured using the tax rates and tax law that have been enacted or substantively enacted by the Balance Sheet date.

K) Earnings per Share:

Basic Earnings per Share is computed by dividing profit or loss attributable to equity shareholders of the company by the weighted average number of equity share outstanding during the year.

For the purpose of calculating diluted Earnings per share, the net profit for the period attributable to equity shares and the weighted average number of equity share outstanding during the period is adjusted for the effect of all dilutive potential equity shares.

Defined Benefit Plan

The employees' gratuity fund scheme managed by trust is a defined benefit plan. The present value of obligation is determined based on Actuarial Valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation for leave encashment is determined based on Actuarial valuation using Projected Unit Credit Method.

30. RECONCILIATION (Contd.)

B) Reconciliation between financial results previously (referred to as the previous Accounting Standards) and the Ind AS for the Year ended 31st March 2017 is as below:

Particulars	For the Year Ended 31.03.2017
Net Profit After Tax (as per previous GAAP)	320488792
Add:-Reclassification of actuarial loss arising in respect of the employees benefits scheme to other comprehensive income (OCI)	6830314
Less:-Tax adjustment on above	2363972
Profit After Tax as per Ind AS	324955134
Less Other comprehensive loss (net of tax)	4466342
Total comprehensive income for the period as reported under Ind AS	320488792

C) Reconciliation between total equity previously reported (referred to as "Previous GAAP" and Ind AS as at 31.03.2017 is as below

Particulars	For the year Ended 31.03.2017
Total Equity(Shareholder's Fund) as per Previous GAAP	1527514195
Add/(Less) adjustment	Nil
Total Equity as per Ind AS	1527514195

D) Reconciliation of cash flows for the year ended 31st March 2017

The adjustments as explained above are of non-cash nature and accordingly, there are no material differences in the cash flows from operating, investing and financing activities as per the erstwhile IGAAP and as per Ind AS

E) Notes on adjustments

i) Re-measurement gains or losses:

Ind AS 19 Employee Benefits requires the impact of re-measurement in net defined benefit liability/asset to be recognized in other comprehensive income (OCI). Re-measurement of net defined benefit liability/asset comprises actuarial gains and losses. However, under IGAAP this is recognised in the Statement of Profit and loss.

ii) Excise Duty:

Under Previous GAAP, revenue from sale of products was presented net of excise duty under revenue from operations. Whereas, under Ind AS, revenue from sale of products is inclusive of excise duty amounting to ₹998.86 lacs for the year ended 31st March 2017. Accordingly, Excise duty has been included in the cost of production, as it is a liability of the manufacturer, irrespective of whether the goods are sold or not.

iii) Rebate and Discount:

Under Previous GAAP, rebate and discount on sale of goods is presented under selling and distribution expenses. Whereas, under Ind AS, revenue from sale of products is presented after netting of rebate and discount.

iv) Other Comprehensive Income (OCI):

Under Previous GAAP, there was no concept of OCI. Under Ind AS, re-measurement of defined benefit plan liability are recognised in OCI.

(The previous year figures have been regrouped/reclassified, wherever necessary to confirm to the current year presentation)
