OVERVIEW

The Financial Statements of the Company have been prepared in compliance with requirements of the Companies Act, 2013 and guidelines issued by Securities and Exchange Board of India (SEBI). Our Management accepts responsibility for integrity and objectivity of these financial statements, as well as for various estimates and judgments used therein. The estimates and judgments relating to the financial statements have been made on a prudent and reasonable basis, so that financial statements reflect in a true and fair manner the form and substance of transactions, and reasonably present our state of affairs, profits and cash flows for the year.

INDUSTRY STRUCTURE AND DEVELOPMENT

The Indian economy grew at 7.3 per cent in 2014-15 due to improvement in the performance of both services as well as manufacturing sectors. The growth in 2014-15 was lower than the advance estimates of 7.4 per cent released in February. The fourth quarter (January-March) of last fiscal saw the economy grow at 7.5 per cent, better than 6.6 per cent recorded for the previous three months, October-December. The manufacturing sector recorded a growth rate of 8.4 per cent during the last quarter of last fiscal, up from 4.4 per cent a year ago. The services sector too witnessed marked improved during the quarter.

The paper industry in India could be classified into three categories according to the raw material consumed. 1. Wood based 2. Waste paper based 3. Agro based. The Indian paper industry produces 10.11 million tons paper per annum, just 1.6% of the total world production of 394 million tons, paperboard and newsprint. Needless to say, at present, India lags far behind compared to international standards. The Scandinavian countries, USA, Russia, China, Indonesia and Japan are the major players in the field of pulp and paper. These countries have some of the best available raw material for paper production and state-of-the-art technology.

In accordance with the economic growth and it is estimated to touch 13.95 million tons by 2015-16. It is estimated that there would be an increase in demand of 1 million tons. The Indian Paper Industry accounts for about 1.6% of the world's production of paper and Paperboard. Paper in India is expected to see an average growth of 7 per cent during the next year according to prediction by the Indian Pulp and Paper Technical Association. The sector is expected to grow 7 per cent per annum.

Currently, the Indian industry is accounts to about 2.5 per cent of the global production of paper. The mills use a variety of raw material viz. wood, bamboo, recycled fibre, bagasse, wheat straw, etc.; approximately 35% are based on chemical pulp, 44% on recycled fibre and 21% on agro-residues. The per capita consumption of India stands at only 9.3 kg compared to China's 42 kg, Indonesia's 22 kg, Malaysia's 25 kg and the US' 312 kg. Studies have shown that the growth of paper consumption changes from linear to exponential trends once the GDP growth rate crosses the double digit mark. Analysts often draw comparisons between the growth seen in bottled drinking water and tissue paper industries. Even if one assumes an average 9% GDP growth rate in the medium term, linear extrapolation suggests that by 2025, the country will consume over 24 million tons of paper. The industry employs 0.37 million people directly and 1.37 million indirectly.

There are about 750-800 paper mills (Organized & Unorganized sector) in the country out of which 12 large units accounts for production share of about 30% and balance units mostly comprising of medium and small paper mills with production share of 70%. Wood based industry accounts for 31% of production while waste paper and agri residue accounts for 47% and 22% respectively. Capacity wise industrial paper accounts for about 40%, Writing & Printing paper 35%, specialty paper 6% and Newsprint 19% of total production.

The major players of the industry are located in Andhra Pradesh, Tamil Nadu, Maharashtra, Punjab, Madhya Pradesh and Gujarat. In terms of numbers, Gujarat tops the tally with 130 units, followed by U.P (115), Maharashtra (112) and Tamil Nadu (88). Paper consumption is poised for a big leap forward in sync with the economic growth and is estimated to touch 13.95 million tons by 2015-16.

The key challenges to be met is market conditions which are poor and technology obsolete, lacking ability in achieving economy scale and lack of skilled labor.

The Core business of Ruchira Papers Limited is paper manufacturing with agriculture residue and waste paper. The Company

started operations in 1983 with manufacturing of Kraft Paper that is used for packaging, corrugation, core pipes, cones etc. With setting up of 100 TPD Writing and Printing Paper plant in the year 2008, the Company has widened its product base in multi-purpose Writing & Printing segment of Paper.

At present, the installed capacity of the Kraft Paper unit is 52800 MT per annum and for Writing & Printing Paper unit it is 33000 MT per annum. Presently the Company is operating more than of its installed capacity. The increase in education expenditure will definitely require more Writing & Printing Paper and we anticipate the faster growth rate of Writing and Printing Paper. Indian Paper Manufacturers Association (IPMA) projects that India's demand for paper is expected to double to 20 million tonnes by 2020.

Due to the ecological problems caused by usage of plastic materials, paper is becoming the most favored option for packaging. The growth of the manufacturing sector will also enhance the demand for Kraft paper.

OPPORTUNITIES AND THREATS

The global paper industry is witnessing a fundamental change with the demand shifting to emerging economies particularly Asia. The paper industry in China and India has emerged to be among the top global players and are expected to improve their ranking significantly in the coming years. India in particular has good growth potential. The low current per capita consumption of paper in India, around 9.3 Kilograms as against the world average of 57 Kilograms, reflects the significant potential that the industry offers in the future. Increasing usage of high speed printing/copying machines with colour reproduction is propelling demand for high quality Writing and Printing papers. This trend will be beneficial for the Company.

Opportunities: The Company being located in Himachal Pradesh is presently entitled to 100 % excise duty exemption for 10 years with effect from 30.03.2008 for the Writing & Printing Paper unit and concessional rates of Central Sales tax at 1.5 % against 2 % in other states. The Company having a Captive Power Cogeneration Plant, which helps to get the cheap and uninterrupted power supply. We are consistently complying with Environmental norms regarding Chemical recovery and have our own chemical recovery system in place. Further, the location of the factory at the outskirts of Himachal Pradesh helps to get raw material agro residues from the neighboring agricultural rich states of Haryana and Punjab.

Threats: As the Indian Paper market grows it is attracting major international players who have access to better technology to setup business in India. The Company recognizes this challenge and has made conscious efforts to build a strong competitive advantage through increased brand equity, wider network and use of contemporary technology. Further Import duty on paper & paper board for ASEAN countries has been reduced from 2.50% to 0% with effect from 01.01.2014 vide notification no. 57/2013 dated 31.12.2013 which had implications in terms of cheaper imports being 2.25 million tones in 2013-14 as against 2.03 million tones in 2012-13. The Company has been also increasing its reach in the rural markets by increased distribution and customized packs. Further steep increase in Raw Material prices and shortage of raw material is creating threats for the paper industries.

However paper consumption is poised for a big leap forward in sync with the economic growth and would overtake GDP growth rate as happened in other economies at a similar point in their growth trajectory. From current levels of around 12.5 Million tons, it is estimated to touch almost 14 Million tons by 2015-16 and 20 Million tons by 2020-21 and 25 Million tons by 2021-25.

Defined Benefit Plan

The employees' gratuity fund scheme managed by trust is a defined benefit plan.
